SCOTT GOGGLES

SCOTT SNOWMOBILE GOGGLES DRAW ON OUR EXTENSIVE EXPERIENCE CREATING BOTH WINTERSPORT AND MOTOSPORT GOGGLES TO DELIVER A COMFORTABLE FIT, EFFORTLESS PERFORMANCE, AND SPORT-SPECIFIC FEATURES SUCH AS THE POLAR SHIELD NOSE/FACE GUARD.

SCOTT PRECISION OPTICS ▼

FRAME TECHNOLOGY ▼

SCOTT FIT SYSTEM

The patented SCOTT Fit System is a mechanical adjustment located at the bottom of each side of the goggle allowing you to choose between four positions, providing a customized face and nose fit.

OVER THE GLASSES (OTG)

OTG Goggles offer protection from the elements and an optimized fit for people requiring prescription glasses.

HELMET COMPATIBILITY

SCOTT goggles are engineered to engage flawlessly with a variety of helmets, including SCOTT's entire helmet line.

REVOLUTIONARY AIR MANAGEMENT SYSTEM

RAM is a patented frame ventilation system that directs airflow within the goggle by using a clean and controlled top-to-bottom pattern, eliminating "swirling air" and fogging.

NO-SLIP SILICONE STRAP

An adhered silicone strip on the inside of the goggle strap ensures the goggles stay right where they should on a helmet.

LENS TECHNOLOGY ▼

SCOTT OPTIVIEW

These European manufactured lenses are made of polycarbonate ensuring comfort and high-impact resistance. SCOTT's proprietary injection molding process and hard coat treatment guarantees that every OptiView lens is optically correct and distortion free. SCOTT OptiView lenses are available as spherical or cylindrical.

SCOTT TRUVIEW

These European manufactured lenses are made of extruded and thermoformed sheets of selected celluloses (CA/CP/PC). TruView lenses pass SCOTT's strict testing procedures delivering high quality, performance lenses. SCOTT TruView lenses are available as cylindrical double or single lens.

100% UV PROTECTION

All SCOTT lenses are optically engineered to screen out 100% of harmful UVA/UVB rays.

ANTIFOG COATING

SCOTT lenses undergo a permanent No Fog™ treatment process to prevent condensation and fogging.

AIR CONTROL SYSTEM (ACS)

ACS ventilation incorporates lens air intake vents on the goggle lens and frame air outtake vents on the bottom of the goggle. The result is a sophisticated ventilation system that helps prevent condensation and fogging.

SCOTT FIT SYSTEM ▼

Located on the outside of the goggle frame, the patent pending SCOTT Fit System creates a custom face and nose fit.

SCOTT TYRANT RAM-AIR PLUG ▼

Exclusive to SCOTT, the adjustable and removable plug enables a full or partial seal of the RAM Air frame openings allowing the rider to customize his or her ventilation settings.

REVOLUTIONARY AIR MANAGEMENT SYSTEM ▼

Revolutionary Air Management (RAM) is a patented frame ventilation system that directs airflow within the goggle by using a clean and controlled top-to-bottom pattern, eliminating "swirling air" and fogging.

FACE FOAM CONSTRUCTION ▼

BIG HYPOALLERGENIC FACE FOAM WITH WINDPROOF MEMBRANE

This extra soft face foam incorporates a PU layer between the foams to deliver the highest level of protection against wind and cold. Its oversized face foam ensures a comfortable fit and precise seal around the face.

BIG HYPOALLERGENIC FACE FOAM

Thanks to its oversized shape, SCOTT's Hypoallergenic Soft Face Foam provides a comfortable fit and precise seal around face. This super soft single density foam also reduces cold spots on the face.

THERMAL LENSES

A dual pane lens designed to separate the warm air in the goggle chamber from the chilly air outside. All Thermal lenses feature SCOTT's No-Fog™ Lens Coating, polycarbonate material to maintain impact resistance and provide 100% UV protection. Thermal lenses do not include tear-off posts.

ACS LENSES

A thermal lens featuring SCOTT's ACS offset vent holes in the lens to further decrease fogging. ACS lenses are made from polycarbonate material to maintain impact resistance and provide 100% UV protection.

A black and white photograph of a person wearing a Scott helmet and ski gear, sitting on a Ski-Doo Summit snowmobile. The person is positioned in the center-right of the frame, facing slightly to the right. The snowmobile is in the foreground, with the brand name 'ski-doo' and 'SUMMIT' visible on its side. The background is a vast, snowy mountain landscape under a clear sky. The overall tone is professional and adventurous.

SCOTT HELMETS

BLENDING HIGH END MATERIALS WITH LEADING EDGE DESIGN, THE 350 PRO HELMETS UTILIZE A LIGHTWEIGHT THERMOPLASTIC SHELL WITH A CONE-HEAD IN-MOLD EPS LINER AND HIGH-FLOW VENT SYSTEM TO BRING YOU STYLISH AND COMFORTABLE PROTECTION.

SCOTT COMMANDER JACKET PROTECTOR

232317

The Commander jacket integrates perfectly with a neck brace and provides unprecedented comfort. The removable sleeves are minimalist and are fully ventilated to help keep the rider cool. Add in intelligently designed plastic shoulders and elbow pads and the Commander Jacket becomes the ultimate body guard.

CONSTRUCTION:

- + Articulated PE and ABS plastic plates
- + Absorbing rubber foam layer

SIZE: M,L,XL

FEATURES

- + Perfect Neck brace compatibility - Patented Commander Neck brace system
- + Extremely aerated and flexible Commander's chest and front plastic coverage

- + Anti-moisture inner front and back panel in 3D mesh
- + Flex multi front plate panel
- + Shoulder length Velcro adjustment
- + Front Ratchet buckle closure
- + Anatomic impact biceps foam
- + Removable ergonomic and bendable elbow and shoulder pads
- + Double tightening band on forearm to avoid arm pump
- + Vented mesh main fabric on sleeve

black/green - 1043

white - 0002

SCOTT COMMANDER BODY ARMOR

237210

The Commander Body Armor offers brace integration construction. Articulated plates on the back panel alleviate excess pressure and discomfort when wearing a neck brace. The vented, articulated plates allow for the back of any brace to be worn comfortably without interfering with the protector. It can be worn under or over the rider's jersey.

CONSTRUCTION:

- + Articulated and impact absorbing shell
- + Combination of high innovative impact absorbing foams
- + Breathable mesh
- + Adjustable waist straps ratchet closure

SIZE: M,L,XL

FIT: Regular

FEATURES

- + Neck brace integration
- + Flex panels

- + Shoulder adjustment
- + Waist adjustment
- + Ratchet micro adjustable closure
- + Ultra vented and breathable with inner mesh construction
- + Ultra-light and minimalist volume
- + Flexible and ergonomic pre shaped front protector
- + Adjustable shoulder straps length with smart Velcro system

black/green - 1043

white - 0002

black - 0001

SCOTT **SOFTCON JACKET PROTECTOR**

232314

The Softcon jacket exemplifies cutting edge personal safety technology and provides unmatched comfort. It is designed to be worn under the jersey and integrates seamlessly with most neck braces. The innovative soft SAS TEC foam is associated with a very tear and scratch resistant foil but is built with venting for improved breathability.

CONSTRUCTION:

- + One-piece plate in SaS TEC™ on Back & Chest
- + SaS TEC™ pads on elbow & shoulder
- + 3D and stretchable mesh fabrics

SIZE: M,L,XL

FEATURES

- + Perfect Neck brace compatibility (integrated recess into protection)
- + Aerated and soft extremely light chest and back plates in SAS TEC material
- + Removable soft and ergonomic elbow and shoulder pads
- + Anti-moisture inner front and back panel in 3D mesh
- + Double tightening band on forearm to avoid arm pump
- + Vented mesh main body fabric
- + Side safe lock zipper
- + Seamless collar

black - 0001

SCOTT **SOFTCON VEST PROTECTOR**

232315

The Softcon Vest is designed to be worn under the jersey and integrates seamlessly with most neck braces. The Vest offers the same protective SAS TEC foam as the jacket and is perfect for those who want chest and back protection without the arm and elbow pads.

CONSTRUCTION:

- + One-piece plate in SaS TEC™ on Back & Chest
- + 3D and stretchable mesh fabrics

SIZE: M,L,XL

FEATURES

- + Perfect Neck brace compatibility (integrated recess into protection)
- + Aerated and soft extremely light chest and back plates in SAS TEC material
- + Anti-moisture inner front and back panel in 3D mesh
- + Vented mesh main body fabric
- + Side safe lock zipper
- + Seamless collar

black - 0001

SCOTT **SOFTCON BODY ARMOR**

232316

The Softcon Body Armor is a simple chest and back protector that features chest and back plates built with SAS TEC material. With adjustable waist lock buckles to ensure a secure fit, the armor also features recesses in the front and back to accommodate most neck braces.

CONSTRUCTION:

- + One-piece plate in SaS TEC™ on Back & Chest
- + 3D and stretchable mesh fabrics

SIZE: M,L,XL

FEATURES

- + Perfect Neck brace compatibility (integrated recess into protection)
- + Aerated and soft extremely light chest and back plates in SAS TEC material
- + Anti-moisture liner in 3D mesh
- + Adjustable waistbelt
- + Easy lock buckle closure

SCOTT **SOFTCON BACK PROTECTOR**232323

The SCOTT Soft CR II back protector features the innovative D3O® ActiFit plate. The plate is low profile which makes it compatible with most neck braces.

CONSTRUCTION: <ul style="list-style-type: none">+ One-piece plate in SaS TEC™+ Additional highly absorbing foam layer+ 3D mesh fabric SIZE: M,L,XL	FEATURES <ul style="list-style-type: none">+ Aerated and soft extremely light chest and back plates in SAS TEC material+ Extra back layer of memory foam+ Anti-moisture liner 3D mesh+ Adjustable shoulder straps+ Adjustable chest strap+ Adjustable Velcro belt
--	---

SCOTT **PURSUIT 450 JACKET PROTECTOR**225592

The 450 Pursuit Jacket offers SCOTT's highest level of protection. With a removable forearm and back-plate, as well as shoulder and lumbar adjustment, the Pursuit Jacket can be adjusted to perfection depending on the rider's preferences and the demands of the environment.

CONSTRUCTION: <ul style="list-style-type: none">+ Impact plastic coverage+ Internal light honey comb structure+ Soft high absorbing foam layer SIZE: M,L,XL FIT: Regular	FEATURES <ul style="list-style-type: none">+ Ventilated plastic back plates with exclusive vertebrae protective plates system+ Side zipper entry+ Removable forearm sleeves and back protector plate+ Adjustable elbow and forearm guard+ Adjustable shoulder width+ Lumbar adjustment and Velcro closure belt+ Neck brace compatible
--	--

SCOTT **SOFT CR II BACK PROTECTOR**237211

The Softcon Back Protector is for those who are seeking the ultimate in back protection. It features adjustable shoulder and chest straps as well as an adjustable velcro belt to ensure a perfect fit. The back plate is fitted with SAS TEC material and features a layer of memory foam for the ultimate in comfort.

CONSTRUCTION: <ul style="list-style-type: none">+ D3O® Viper protective plate+ Aerated 3D mesh SIZE: M,L,XL	FEATURES <ul style="list-style-type: none">+ Removable, soft ventilated back plate in D3O™ featuring SCOTT Soft ACTIFIT+ Breathable mesh back panel+ Removable, adjustable shoulder straps+ Adjustable chest belt+ Double elastic hip belt
--	---

black - 0001

SCOTT COMMANDER ELBOW GUARDS

232322

The Commander Elbow guards were designed to flex with the natural motion of the elbow and feature a vented mesh fabric on the sleeve for better breathability. The mesh also helps to reduce arm pump.

CONSTRUCTION:

- + Articulated PE plastic plates
- + Absorbing rubber foam layer

SIZE: S/M, L/XL

FEATURES

- + Removable ergonomic and bendable elbow plastic shell
- + Double tightening band on forearm to avoid arm pump
- + Vented mesh main fabric on sleeve

black/green - 1043

SCOTT MX KNEE GUARD

217775

These guards offer basic knee and shin protection. The knee guards feature an efficient 3-strap adjustment and are fully articulated for ease of movement.

CONSTRUCTION:

- + Impact plastic coverage
- + Bio Foam

SIZE: one size

FIT: Regular

FEATURES

- + Articulating Knee
- + 3 comfort straps
- + Sublimated identity graphics

black/green - 1043

SCOTT MX UNDERSHORTS PROTECTOR

225598

The MX Undershorts was designed to be worn under MX pants to provide extra hip protection. A comfortable chamois was added to the seat area to provide more cushion. This undershort is perfect for those seeking a little more protection as well as more comfort in the saddle.

CONSTRUCTION:

- + Impact plastic coverage
- + Soft absorbing foam pads

SIZE: S,M,L,XL

FIT: Regular

FEATURES

- + Removable plastic shell protection on legs
- + SAS TEC on hips
- + Protective flap in EVA on the top of hips
- + Chamois pad for increased comfort
- + Breathable and comfortable mesh construction
- + Multi-panel construction

SCOTT 550 NECK BRACE

237807

The Neck Brace 550 balances the individual needs of comfort, effectiveness and safety. Adjustability ensures secure fitting and greater freedom of motion, optimizing the Leatt® protective technology. The semi-rigid chassis is flexible and adjustable enough to fit most riders' body shape, while the structure remains rigid enough to help transmit energy during an impact.

CONSTRUCTION: <ul style="list-style-type: none">+ Fibreglass reinforced polyamide resin structure+ Injected foam padding SIZE: S/M, L/XL	FEATURES <ul style="list-style-type: none">+ Engineered snap-off thoracic strut+ Full adjustability – sliding front and rear adjusters and 4-angle rear thoracic strut adjustment+ Alternative Load Path Technology™, engineered by Leatt®+ Removable pads to adjust the height of the brace+ Collar bone cut out section+ Quick release closure
---	--

black - 0001

SCOTT 250 NECK BRACE

235877

The Neck Brace SCOTT 250 is a premium neck protection with an affordable price tag. Fibreglass reinforced polyamide construction and Biofoam padding with fixed front and rear panels.

CONSTRUCTION: <ul style="list-style-type: none">+ Fibreglass reinforced polyamide resin+ Carbon-fibre, reinforced with Kevlar® Shock absorbing Biofoam SIZE: S/M, L/XL FIT: Premium	<ul style="list-style-type: none">+ Engineered Collarbone cutout to help keep your helmet and brace away from one of your most fragile bones.+ Two red hinges. Its bright red color ensures easy identification by paramedical personnel in an emergency situation+ Crumple zone+ Biomechanical padding to cushion chin+ Fits with most body armors+ Easy fit strap system+ Anatomical design, full adjustable all tools and parts in pack according to SCOTT size chart+ 850g +/- 50g
--	---

grey/black - 1019

SCOTT 550 JR NECK BRACE

237808

The Jr Neck Brace 550 balances the needs of comfort, effectiveness and safety by allowing greater freedom of movement and adjustment. The Leatt® design for adjustability ensure a correct fit as junior riders grow, optimizing effectiveness and protection. Shoulder pads can raise or lower the brace for a personalized fit while lowered side areas accommodates the smaller stature of junior riders.

CONSTRUCTION: <ul style="list-style-type: none">+ Fibreglass reinforced polyamide resin structure+ Injected foam padding SIZE: one size	FEATURES <ul style="list-style-type: none">+ Engineered snap-off thoracic strut+ Full adjustability – sliding front and rear adjusters and 4-angle rear thoracic strut adjustment+ Alternative Load Path Technology™, engineered by Leatt®+ Removable pads to adjust the height of the brace+ Collar bone cut out section+ Quick release closure

black - 0001

SCOTT JR NECK ARMOR

237809

Created with Leatt® innovation the Jr. Neck Armor is the first of its kind, combining neck and torso protection for Junior riders. It addresses that young riders are more susceptible to chest, flank, shoulder, back and neck injuries. Pairing established neck protection with new impact absorbing 3DF foam technology provides a comfortable and well vented upper body protector.

CONSTRUCTION:

- + Fiberglass reinforced polyamide resin structure of the brace
- + Absorbing rubber foam layer - 3DF foam technology

SIZE: XS, S

FEATURES

- + Neck protection based on the 550 neck brace model
- + Flexible neck structure
- + Removable shoulder protection
- + Large Velcro closure on chest sides
- + Vest built with soft, aerated and flexible impact foam
- + Inner mesh fabric panel
- + Quick release closure

*Image does not show the final graphics

white - 0002

SCOTT JR COMMANDER BODY ARMOR

237212

The Junior Commander Body Armor offers the same patented NECK BRACE INTEGRATION CONCEPT as the adult version. Articulated plates on the back panel alleviate excess pressure and discomfort when wearing a neck brace. The vented, articulated plates allow for the back of any brace to be worn comfortably without interfering with the protector. It can be worn under or over the rider's jersey.

CONSTRUCTION:

- + Articulated PE and ABS plastic plates
- + Absorbing rubber foam layer

SIZE: XS, S

FEATURES

- + Neck brace integration
- + Flex panels
- + Shoulder adjustment
- + Waist adjustment

black/green - 1043

black/green - 1043

SCOTT SOFT CR II JR BACK PROTECTOR

225600

The Junior SCOTT Soft CR II back protector features the innovative D3O® Viper plate surrounded by ventilated 3D mesh. The plate is low profile which makes it compatible with most neck braces. With multiple adjusting straps the Junior Soft CR II can be adjusted for a custom fit.

CONSTRUCTION:

- + D3O® Viper protective plate
- + Aerated 3D mesh

SIZE: XS, S

FIT: Regular

FEATURES

- + Removable, soft and ventilated D3O® back plate
- + Removable, adjustable shoulder straps
- + Adjustable sternum strap
- + Double elastic hipbelt

SCOTT ACCESSORIES

SCOTT FACE HEATER FACEMASK

225404

SIZE: XS-XL

SHELL FABRIC: 100% Polychloropren,
100% Polyamid

FEATURES

- + Ventilated neoprene gives comfort and breathability
- + Excellent fit and protection with "air-technology"
- + All purpose and weather use
- + Maschine washable

black - 0001

SCOTT FACE HEATER HOOD FACEMASK

225405

SIZE: XS-XL

SHELL FABRIC: 100% Polychloropren
100% Polyamid, 81% Polyamid 19%
Elastane

FEATURES

- + Ventilated neoprene gives comfort and breathability
- + Excellent fit and protection with «air-technology» and Power Stretch® insert
- + All purpose and weather use
- + Maschine washable

black - 0001

SCOTT WIND WARRIOR FACEMASK

225406

SIZE: XS-XL

SHELL FABRIC: 78% Polyester, 22% Polyurethan

FEATURES

- + Pleasant and soft fleece next to skin
- + Excellent fit, comfort, breathability and protection with "air technology" and laminated windbreaking fabric
- + All purpose and weather use
- + Machine washable for easy care

black - 0001

SCOTT WIND WARRIOR HOOD FACEMASK

225408

SIZE: XS-XL

SHELL FABRIC: 78% Polyester 22% Polyurethan, 81% Polyamid 19% Elastane

FEATURES

- + Pleasant and soft fleece next to skin
- + Excellent fit, comfort, breathability and protection with "air technology" and laminated windbreaking fabric
- + Power Stretch® hood
- + Laminated panels in strategic areas for extra protection
- + All purpose and weather use
- + Machine washable for easy care

black - 0001

SCOTT BALACLAVA FACEMASK

225407

SIZE: XS-XL

SHELL FABRIC: 100% Polyester, Single sided fleece

FEATURES

- + Pleasant and soft fleece next to skin
- + Light mesh hood with air-exchange
- + Excellent fit
- + Machine washable for easy care

black - 0001

SCOTT OPEN BALACLAVA FACEMASK

236948

SIZE: XS-XL

SHELL FABRIC: 100% Polyester

FEATURES

- + Pleasant fabric for easy use and comfort
- + Perfect fit and open face area to be adjusted
- + Machine washable for easy care

black - 0001

SCOTT K'S OPEN BALACLAVA FACEMASK

237518

SIZE: S/46, M/48, L/50, XL/52

SHELL FABRIC: 100% Polyester

FEATURES

- + Pleasant fabric for easy use and comfort
- + Perfect fit and open face area to be adjusted
- + Machine washable for easy care

black - 0001

SCOTT NECKWARMER

236949

SIZE: S-XL

SHELL FABRIC: 100% Polyester, 83% Polyester 17% Elastane, 85% Nylon, 15% Elastane

FEATURES

- + Pleasant and soft fleece next to skin
- + Laminated windbreaker fabric gives comfort and protection against cold and wind
- + Excellent fit with stretch adjustment at back
- + All purpose and weather use
- + Machine washable for easy care

black - 0001

SCOTT NEOPRENE POWERBELT

225400

SIZE: S-XXL

SHELL FABRIC: 100% Polychloropren

FEATURES

- + Made of ventilated neoprene for increased comfort, lumbar support and breathability
- + Excellent fitted style
- + Velcro closure for easy size adjustment
- + All purpose and all weather use
- + Machine washable for easy care

black - 0001

SCOTT BEANIES

IT'S AS MUCH ABOUT KEEPING YOUR HEAD WARM AS IT IS ABOUT STYLE AND FUNCTION. OUR HEADWEAR LINE FEATURES TECHNICAL MATERIAL SUCH WINDSTOPPER®, DOUBLE LAYER KNIT BEANIES FOR COMFORT AND WARMTH, AND MULTIPLE COLOR OPTIONS TO COMPLETE YOUR WINTER LOOK.

APPAREL TECHNOLOGIES

GORE-TEX®

Garments engineered with GORE-TEX® technology are durable, water and windproof, and feature optimal breathability. They are built to maximize protection and comfort. GORE-TEX® products are created by laminating the GORE-TEX® membrane to high-performance textiles. In order to guarantee a waterproof product, the seams on the entire garment are sealed with GORE-SEAM® tape technology.

GORE-TEX® Performance Shell with Z-Liner

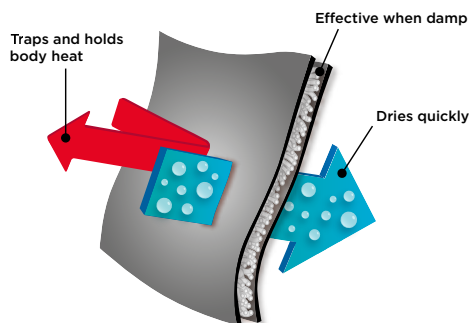

WINDSTOPPER®

With total windproof protection and excellent breathability, WINDSTOPPER® softshell combines the comfort of a soft midlayer with the water resistance of a shell.

3M THINSULATE™ INSULATION

Inch for inch, no insulation keeps you warmer than Thinsulate™, providing up to two times the warmth of other high-loft insulation materials and nearly 1.5 times the warmth of down.

3M™ Thinsulate™ Insulation
The insulation that's thin, light, warm

triPHASE

A PROMISE FOR YOUR RIDE.

triPHASE (TP) is a climate control technology based on a PU (polyurethane) membrane developed exclusively by SCOTT Sports. The windproof and waterproof features protect in all weather conditions while allowing moisture to escape to maintain the highest level of breathability, comfort and regulate the rider's body temperature. SCOTT requires the 3-layer and Z-liner constructions to be tested under extreme conditions before being approved for use in any SCOTT Motorsports product.

HIPORA®

HIPORA® is a unique polyurethane insert technology consisting of numerous tiny flakes placed all over the polyurethane coated film that shuts out water.

POLARTEC® POWER DRY®

Fabrics designed to keep your skin dry when you sweat. Superior wicking action, high breathability and a quick drying function make these pieces always feel comfortable next to skin.

POLARTEC® POWER STRETCH®

Featuring body-hugging 4-way stretch and excellent breathability, Polartec® Power Stretch® fabrics keep you warm and dry without added weight.

CORDURA®

CORDURA® is a high performance, abrasion resistant fabric constructed using high tenacity fiber technologies. CORDURA® fabrics are exceptionally durable allowing products to be strong and long-lasting.

SCOTT ALL-YEAR-ROUND

Represents functional pieces in SCOTT's technical outerwear intended for year round use. No matter what the season is, the pieces selected as All Year Round provide performance and versatility.

DUROfresh

Utilizing natural, environmentally friendly agents to treat fabrics, SCOTT DUROfresh garments fight odor through their anti-microbial, anti-bacterial, and anti-fungal properties.

DRYOsphere

DRYOsphere fabrics provide 10,000/12,000 waterproof/breathable barrier from the elements. A shield against water and wind, DRYOsphere fabric also allows for water vapor to escape from the body, keeping you dry and comfortable in any condition.

SOFT PROTECTION TECHNOLOGIES

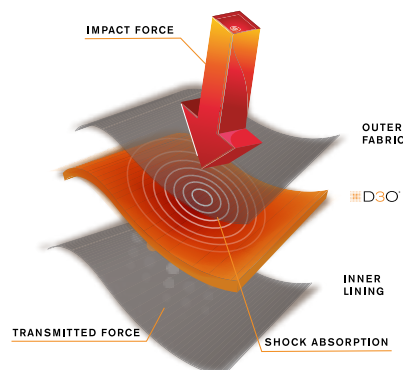

D3O®

A unique synthetic elastomeric polymer material that focuses on energy dispersion in critical areas for maximum shock absorption and protection, significantly reducing the effect of impact.

D3O® VIPER PROTECTIVE PLATE

The D3O® Viper range of back protectors benefit from Airwave Technology which is extremely flexible, has a low profile and is lightweight, while offering incredible protection. All our Viper back protectors are CE certified.

HARD PROTECTION TECHNOLOGIES ▾

AVAILABLE ON SCOTT PURSUIT & SCOTT PURSUIT SX JACKET PROTECTORS ▾

The SCOTT Vertebrae system has been awarded several times for its innovative and unique construction.

The plate system mimics the vertebrae, articulating in 3 axes to ensure free lateral extension and compression movements, resulting in complete freedom of movement and the highest level of protection.

FULLY ARTICULATED HARD PLATES

High shock and abrasion resistant hard plastic plates using an innovative riveted system that flexes with the body and maximizes movement.

HONEYCOMB LAYER

Lightweight structure that protects high energy impact and ensures maximum breathability.

STRUCTURAL LAYER

Smart foam distributes shock over the entire protective surface and promotes movement based on its geometrical shape.

SCOTT COMMANDER BODY ARMOR ▾

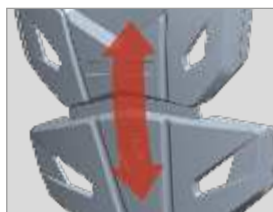

The SCOTT Commander sets new standards with innovative, lightweight, high impact absorbing materials in key areas which offer an adjustable ergonomic fit and unprecedented comfort.

The SCOTT Commander Body Armor fulfills all required safety standards and offers the all new revolutionary SCOTT NECK BRACE INTEGRATION CONCEPT for precise incorporation of your Neck Brace, allowing maximum movement and comfort due to the independent floating thoracic plates (patent pending).

No more complicated adjustments or modification/removal of plates to adapt to a Neck Brace. Just put your Neck Brace on top of the armor, attach with the brace straps and you are ready to go!

BACK PROTECTOR: CE EN 1621-2 LEVEL 1 CERTIFIED

1. FULLY LEATT COMPATIBLE

The top back plates are split in two for a better mobility and they are connected with a stretchable link to emphasize the flex between the central plate and the side plate.

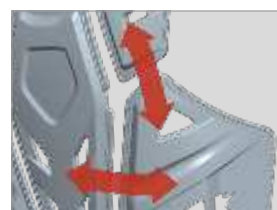

2. TOTAL MOBILITY

The slot connections of the plates are wider to allow a better rotational movement and the foam layer has a special shape to ensure greater freedom of movement.

3. HIGHLY VENTILATED

The combination between large vents and opened mesh fabric offers more breathability while keeping you cool.

CHEST PROTECTOR: CE EN 14021 CERTIFIED

1. FULLY LEATT COMPATIBLE

The front plates are specially designed to incorporate the Neck Brace.

2. COMFORTABLE FIT

The front is split in 5 protective plates to ensure maximum range of movement To give the perfect fit.

NECK BRACE TECHNOLOGIES ▾

SCOTT NECK BRACE INTEGRATION CONCEPT AVAILABLE ON COMMANDER BODY ARMOR (PATENT PENDING) ▾

The SCOTT NECK BRACE INTEGRATION concept with articulating brace plates and the brace strap system offer a perfect incorporation of your Neck Brace without any need of removing plates or modification of the Armor. This is a world first.

Just put your Neck Brace on top of the armor, attach with the brace straps and you are ready to go. The innovative shock absorbing materials used on our new

Commander allows maximum lightweight construction. The back protector system passes level 1 CE 1621-2 motorcycle standard and the front chest protector passes the CE 14021 standard. It is a fully CE standard approved protector.

Neck injuries can be one of the most serious upper body injuries. The SCOTT NECK BRACE was engineered in collaboration with Leatt®, the market leader and pioneer

of the “helmet for your neck”. It functions in conjunction with your helmet and is designed to help protect your neck from extreme movements and overall neck loading in the event of an accident.

The SCOTT NECK BRACE is engineered with Leatt®’s proven Alternative Load Path Technology™ (ALPT™) and features seamless integration of function, movement and looks.

ARTICULATED & HIGH IMPACT RESISTANT PLASTIC PLATES

Hard plates are made from a plastic material known for high resistance to shock and abrasion. The 3 plates system on the back allows perfect incorporation for Neck Braces with the back protector (patent pending).

HIGH PERFORMING IMPACT FOAM

The innovative and high absorbing foam used on the back plates offers performing shock absorption without compromising the lightness.

ALPT: ALTERNATIVE LOAD PATH TECHNOLOGY

All SCOTT Braces help protect riders from 5 types of head/neck impacts by employing Alternative Load Path Technology™.

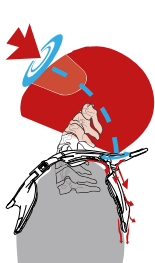

This innovation helps disperse the energy, typically transferred to the neck, resulting from an impact to the head and assists in the transferring of forces away from the vulnerable neck structures to less vulnerable areas of the body and is pivotal in the design of all SCOTT neck Braces.

In a typical face-plant type accident without a SCOTT Neck Brace, the force of the impact is transferred from the ground to the helmet, through the helmet to the skull and skull base where it is then transferred through the neck to the back (thoracic spine).

With the SCOTT-Brace fitted, the force will instead transfer from the ground to the helmet, through the helmet onto the SCOTT Neck Brace where some of the force will be redistributed by the brace to the less vulnerable parts of the torso.

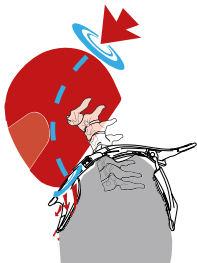

If the impact is significant enough, the brace is designed with crumple zones (similar to those seen in cars) to help absorb more of the impact.

THE SCOTT NECK BRACE HELPS PROTECT AGAINST THE FOLLOWING MAIN SCENARIOS:

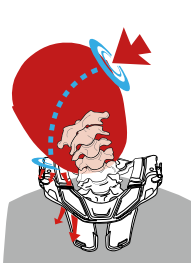

HYPER- EXTENSION

Extreme bending of the head in rearward direction.

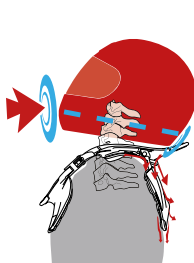

HYPER- FLEXION

Extreme bending of the head in forward direction

LATERAL HYPER-FLEXION

Extreme bending of the head to one side.

POSTERIOR HYPER- TRANSLATION

Extreme movement of head and helmet, rearward on the neck.

COUPLED AXIAL LOADING

Helps prevent axial loading only when the axial forces act in combination with other mechanisms.

Eg: when your head is forced downward and forward (Hyperflexion) or downward and backward (Hyperextension).
