

2016 ONROAD WORKBOOK

—

NO SHORTCUTS

NO SHORTCUTS

NO SHORTCUTS

Like the modest champion sitting in the corner listening as others spit their egos all over each other, SCOTT quietly lets its achievements, its victories, its skills speak for themselves. We don't make products for those who yearn to be noticed. We make them for those who are going to do what they do whether there's anyone watching or not.

If you're like us, you say what you say, do what you do, ride where you ride because you love it. You do it the right way. You do it for the right reasons.

INNOVATION TECHNOLOGY DESIGN

—

SINCE 1958 SCOTT SPORTS HAS PUSHED THE LIMITS OF INNOVATION, TECHNOLOGY AND DESIGN. FROM THE FIRST ALUMINUM SKI POLE, TO THE INTRODUCTION OF AERO BARS AND THE ORIGINAL PLASTIC MOTOCROSS BOOT, WE HAVE LED THE WAY IN THE SPORTS INDUSTRY. COMBINING ENDLESS DETERMINATION TO IMPROVE WITH THE METHODICAL INTRICACY PUT INTO EACH PRODUCT, SCOTT PREPARES ATHLETES TO REACH THEIR HIGHEST POTENTIALS. THE 2016 COLLECTION EXEMPLIFIES THIS MENTALITY AND THE UNIFICATION OF OUR THREE CORE PHILOSOPHIES. WHEN YOU PUSH YOURSELF TO THE LIMIT SCOTT WILL STAND BY YOU AND HELP YOU SURPASS WHAT EVEN YOU BELIEVED WAS IMPOSSIBLE. LET OUR PASSION BECOME YOUR PASSION AND YOUR SUCCESSES BECOME OUR SUCCESSES.

- + 2 outer pockets
- + Snap and hook closure
- + Adjustments at waist and hem

SCOTT MODULAR SYSTEM

The SCOTT Modular System was created to provide a solution for riding in changing and diverse weather conditions. A three piece system composed of the Concept VTD, the Concept DP and the Insuloft jacket, delivers 5 different combinations of usage. For a typical sunny day the Concept VTD can be worn on its own. With strategic ventilation you can adjust the jacket and pants depending on the season. When the temperature begins to drop the simple incorporation of the Insuloft under the Concept VTD will keep you warm. In the unfortunate case of rain the Concept DP can be worn over the Concept VTD (with or without the Insuloft underneath) to provide a completely waterproof barrier. Additionally the DP jacket and pant were constructed with pockets for protectors. This makes it the perfect solution to wear over urban clothes, preventing contact with dirt, oil or rain.

SCOTT SOFTCON JACKET PROTECTOR

232314

The SCOTT Softcon jacket exemplifies cutting edge personal safety technology and provides unmatched comfort. It is designed to be worn under the jersey and integrates seamlessly with most neck braces. The innovative soft SAS-TEC™ foam is associated with a very tear and scratch resistant foil but is built with venting for improved breathability.

CONSTRUCTION:

- + One-piece plate in SAS-TEC™ on Back & Chest
- + SAS-TEC™ pads on elbow & shoulder
- + 3D and stretchable mesh fabrics

SIZE: M,L,XL

FEATURES

- + Perfect Neck brace compatibility
- + Removable elbow and shoulder pads
- + Anti-moisture inner panels in 3D mesh
- + Main body made of stretch mesh fabric
- + Arm pump free construction
- + Lock zipper
- + Seamless collar

SAS-TEC
toughly protective class lightweight

SCOTT FACE HEATER
FACEMASK

225404

- SHELL FABRIC:** 100% Polychloropren, 100% Polyamide
- SIZE:** XS-XL
- FEATURES**
- + Ventilated neoprene gives comfort and breathability
 - + Excellent fit and protection with "air-technology"
 - + All purpose and weather use
 - + Maschine washable

black - 0001

SCOTT FACE HEATER HOOD
FACEMASK

225405

- SHELL FABRIC:** 100% Polychloropren 100% Polyamide, 81% Polyamide 19% Elastane
- SIZE:** XS-XL
- FEATURES**
- + Ventilated neoprene gives comfort and breathability
 - + Excellent fit and protection with «air-technology» and Power Stretch® insert
 - + All purpose and weather use
 - + Maschine washable

black - 0001

SCOTT WIND WARRIOR
FACEMASK

225406

- SHELL FABRIC:** 78% Polyester, 22% Polyurethan
- SIZE:** XS-XL
- FEATURES**
- + Pleasant and soft fleece next to skin
 - + Excellent fit, comfort, breathability and protection with "air-technology"
 - + Laminated panels in strategic areas for extra protection
 - + All purpose and weather use
 - + Maschine washable for easy care

black - 0001

SCOTT WIND WARRIOR HOOD
FACEMASK

225408

- SHELL FABRIC:** 78% Polyester 22% Polyurethan, 81% Polyamide 19% Elastane
- SIZE:** XS-XL
- FEATURES**
- + Pleasant and soft fleece next to skin
 - + Excellent fit, comfort, breathability and protection with "air-technology"
 - + Laminated panels in strategic areas for extra protection
 - + Power Stretch® hood
 - + All purpose and weather use
 - + Maschine washable for easy care

black - 0001

SCOTT BALACLAVA FACEMASK

225407

SHELL FABRIC: 100% Polyester, Single sided fleece

SIZE: XS-XL

FEATURES

- + Pleasant and soft fleece next To skin
- + Light mesh hood with air-exchange
- + Excellent fit
- + Machine washable for easy care

black - 0001

SCOTT OPEN BALACLAVA FACEMASK

236948

SHELL FABRIC: 100% Polyester

SIZE: XS-XL

FEATURES

- + Pleasant fabric for easy use and comfort
- + Perfect fit and open face area to be adjusted
- + Machine washable for easy care

black - 0001

SCOTT K'S OPEN BALACLAVA FACEMASK

237518

SHELL FABRIC: 100% Polyester

SIZE: S/46, M/48, L/50, XL/52

FEATURES

- + Pleasant fabric for easy use and comfort
- + Perfect fit and open face area to be adjusted
- + Machine washable for easy care

black - 0001

SCOTT NECKWARMER

236949

SHELL FABRIC: 100% Polyester, 83% Polyester 17% Elastane, 85% Nylon, 15% Elastane

SIZE: S-XL

FEATURES

- + Pleasant and soft fleece next to skin
- + Laminated windbreaker fabric gives comfort and protection against cold and wind
- + Excellent fit with stretch adjustment at back
- + All purpose and weather use
- + Machine washable for easy care

black - 0001

SCOTT NEOPRENE POWERBELT

225400

SHELL FABRIC: 100% Polychloropren

SIZE: S-XXL

FEATURES

- + Made of ventilated neoprene for increased comfort, lumbar support and breathability
- + Excellent fitted style
- + Velcro closure for easy size adjustment
- + All purpose and all weather use
- + Machine washable for easy care

black - 0001

SCOTT BASIC SWEATHEAD PAK-3

225401

MATERIAL: Cotton/elastane, jersey., 100% polyester, mesh.

SIZE: One size

FEATURES

- + Essentially to be worn under helmet.
- + Keeps sweat away from eyes.
- + Excellent air exchange thanks to mesh top.
- + Elasticated opening to fit all sizes.
- + Print in center front.
- + Comes in a 3-piece pack.

black - 0001

SCOTT TECH SWEATHEAD PAK-3

225402

MATERIAL: Polyester/elastane, jersey. 100% polyester, mesh

SIZE: One size

FEATURES

- + Essentially to be worn under helmet.
- + Keeps sweat away from eyes.
- + Technical fibre wicks the sweat away and keeps your head cool, dry and comfortable.
- + Excellent air exchange thanks to mesh top.
- + Elasticated opening to fit all sizes.
- + Print in center front.
- + Comes in a 3-piece pack.

black - 0001

SHELL FABRIC TECHNOLOGIES

GORE-TEX® TECHNOLOGIES

GUARANTEED TO KEEP YOU DRY™ PROMISE

For more than 30 years, GORE-TEX® products have been delivering comfort and protection so you can enjoy your outdoor activities with confidence. The GORE-TEX® membrane is integrated in the garment between the outer material and the lining. It is a perfect barrier to rain and wind, while allowing perspiration to escape. Even in cases of extreme physical exertion, humidity will be transported to the outside of the clothing system and you always stay comfortable in your SCOTT garments engineered with GORE-TEX® products.

3-LAYER GORE-TEX® CONSTRUCTION

For extreme conditions and for best weatherprotection. Outshell, membrane and lining bonded to a functional layer.

Z-LINER GORE-TEX® CONSTRUCTION

Light and soft solution for non-restrictive designs. Membrane inserted liner between outshell and lining.

HITENA™

Hitena™ has been developed after many years of research in the use of specialized sports equipment, and in tasks facing great challenges because of weather conditions and quality requirements. Hitena™ is made from a mixture of technical polyamide fibers, which ensure long-term resistance against wear, tear and dirt.

PITTARDS®

A digital leather produced in the UK. Motorcyclists worldwide demand the highest level of performance from their protective gloving equipment.

DRYOSPHERE

DRYosphere fabrics provide a waterproof/windproof/breathable barrier, protecting you from the elements. Combined with our DRYOzone DWR (Durable Water Repellent), these technologies act as a shield against water and wind, while enabling vapor to escape. This combination of protection and breathability keeps you dry and comfortable in any condition.

WATERPROOF

Helps you stay dry with eco-compatible durable water repellent technology (DWR) on the outermost surface. It also helps to repel stains.

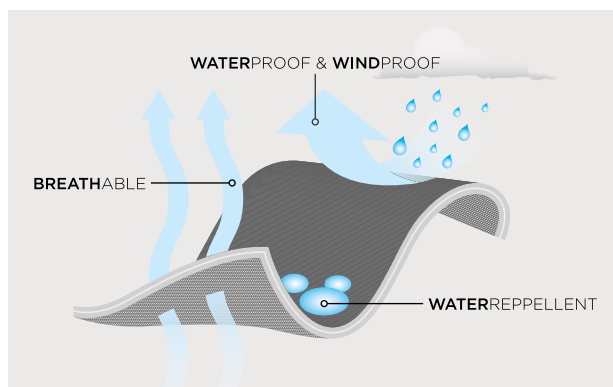

WINDPROOF

DWR technology also helps you stay warm by blocking out the wind.

BREATHABLE

Helps to regulate your body temperature and keep you comfortable by enabling vapor to escape.

2 & 3 layer shell fabrics with a polyurethane layer bonded to the underside combined with DRYOzone DWR on the outermost surface provides a minimum capability of 10,000mm water pressure resistance & 10,000mm moisture transport performance.

SCOTT PROTECTION TECHNOLOGIES

SCOTT SOFTCON PROTECTIVE SYSTEM

THE REVOLUTIONARY SOFTCON JACKET IS THE MOST FLEXIBLE AND COMFORTABLE SOLUTION TO BE PROTECTED WITHOUT COMPROMISING PROTECTION. COMBINING INNOVATIVE MATERIALS - SAS-TEC™ AND A UNIQUE DESIGN THE NEW SOFTCON DELIVERS UNPARALLELED FREEDOM OF MOVEMENT WHILE REMAINING PROTECTIVE BY PASSING TREE STANDARDS. ITS BACK AND FRONT ARE LOW PROFILED AND HAVE SPECIAL RECESS TO INCORPORATE AND FIT WITH NECK BRACES.

PERFECT NECK BRACE COMPATIBILITY

The recessed shape on front and back allows putting easily the neck brace on the protector without removing any parts and wearing the neck brace on the jersey.

FLEXIBLE SAS SAS-TEC™ FOAM STRUCTURE

SCOTT Motosports collection uses a unique viscoelastic material called SAS-TEC™ that enhance flexibility allowing the protection to conform to the body and ensure a tight and consistent seal.

LOW PROFILE AND INVISIBLE LOOK

The protection is so thin that it is invisible under the jersey.

D3O® TECHNOLOGY

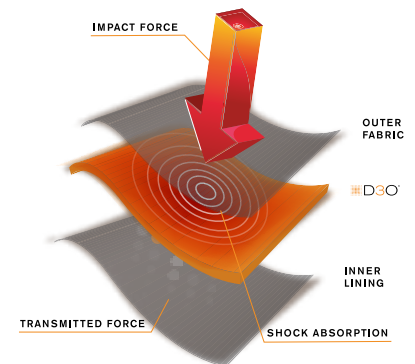

HOW DOES D3O® MATERIAL WORK?

D3O® is a patented material with intelligent molecules. It flows with you as you move but locks together on impact to absorb energy and protect you. This unique innovative component provides an optimal freedom of movement and surpasses CE standards.

INCREASED COMFORT AND MOBILITY.

D3O® back protection is low profile, lightweight, flexible and soft.

D3O® protectors allow for complete freedom of movement and mold to your body so you will not even feel like you are wearing a back protector.

SAS-TEC PROTECTION

SAS-TEC experts have years of experience with shock absorbing systems. The systems have passed all of Scott's requirements and have significantly outperformed the benchmark for all joint and back protectors in the European Market, known as the CE Standards.

3D-Protector from visco elastic soft foam with outstanding shock absorption values: Residual force according to EN 1621-2 under 9KN (limit Level 2: 9KN). Anatomically perfectly adapted and barely noticeable. High-end engineering for greater performance.

SCOTT APPAREL FEATURES

- 01. Removable thermal lining
- 02. Snap and hook with YKK FlexFix
- 03. Connection zipper
- 04. Comfortable cuff
- 05. One hand adjustment at hem

- 06. One hand adjustment at collar
- 07. Sleeve adjustment
- 08. Antislip at bottom
- 09. Front flap insulation
- 10. Easy zip handle

- 11. Colored Velcros
- 12. Fleece lined collar
- 13. Ventilation system

FUNCTIONAL TECHNOLOGIES

FIDLOCK MAGNETIC SNAP SYSTEM

This snap/magnet combination unites the convenience of a magnetic fastener with the stability of a mechanical snap.

STORM CUFF WITH THUMB LOOP

Built to optimize water resistance, the Storm Cuff with Thumb Loop provides a comfortable solution to prevent water from entering between the glove and cuff.

FLEXFIX

This collar solution eases the fastening of the collar through the usage of a magnet to guide the closure. Combining this with the strong YKK snap secures the collar in place with minimal effort. This system also allows for the collar to be securely fastened in the open position to prevent it from fluttering in the wind.

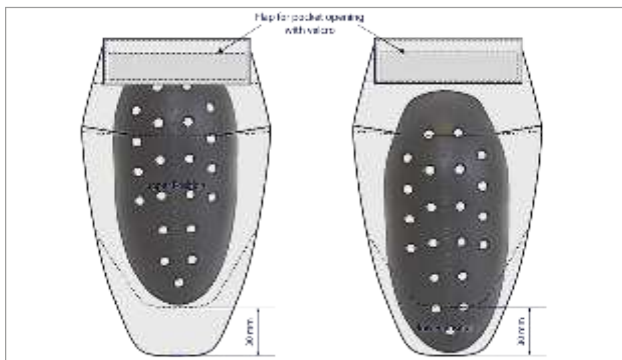

DIRECT VENTILATION

In products that feature direct-laminated construction the outer membrane is fused together with the lining and insulation. Unlike in traditional jacket and pant construction, opening a direct ventilation allows for air circulation to penetrate all the way to the surface of the skin. Maximizing temperature control and cooling effectiveness.

TEETHLESS ITD WATERPROOF ZIPPER

A completely waterproof solution, the Teethless ITD Waterproof Zipper creates a seamless seal, locking out water. To optimize usage its best to use some SLIP OIL (main ingredient non-toxic silicone) on the surface of the zipper after washing for smooth operation.

HYBRID POCKET PROTECTOR

The Hybrid Pocket Protector is located at either the knee or the elbow to facilitate the personal adjustment of joint protection. Each pocket has two positions giving the rider the option of lowering or raising the protector 30mm. This precise adjustment can make all the difference in ensuring riding comfort and maximizing safety.
