SCOTT PROSPECT

SCOTT GOGGLES HAVE ALWAYS BEEN A QUALITY PRODUCT ON THE MARKET. CAPITALIZING ON MORE THAN 40 YEARS OF EXPERIENCE, THE PROSPECT DEFINITELY TAKES AN EXTRA STEP IN THE RIGHT DIRECTION WITH PUSHING THE LIMITS OF FIELD OF VISION, COMFORT AND LENS RETENTION. OUR INNOVATIVE LENS LOCK SYSTEM NOT ONLY INCREASES IMPACT RESISTANCE, BUT WILL KEEP THE LENS IN THE FRAME REGARDLESS OF HOW ROWDY YOUR RIDE GETS. IMPRESSIVE LOOKS, A MASSIVE FIELD OF VISION AND CLEVER FEATURES FOR RIDING IN ANY WEATHER CONDITIONS MAKE THIS GOGGLE A MUST HAVE FOR YOU.

SPECIAL FEATURES

LENS LOCK SYSTEM

This system guarantees the safest lens retention on the market. Instead of feeding the lens in the groove and securing it with tabs, there are two locking pins at the top and two at the bottom that have to be pulled out before the lens can be changed.

MASSIVE FIELD OF VISION

The larger lens combined with a thin frame construction brings the lens closer to your eyes maximizing the overall field of vision.

PIVOTING OUTRIGGERS

The two pivoting outriggers adapt to any helmet shape. Pressure created by the goggle on the rider's face provides a good seal.

PROSPECT

1. LENS LOCK SYSTEM
The next level in lens retention and impact resistance

2. MASSIVE FIELD OF VISION
The largest in the industry

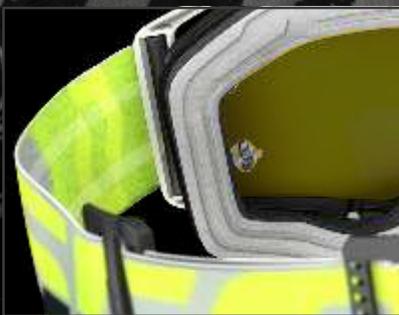

3. PIVOTING OUTRIGGERS
Always the right pressure against your face

4. LARGE SILICONE LINED STRAP
For better security

5. 3 LAYER FACE FOAM
The ultimate comfort and protection

6. REMOVABLE NOSEGUARD
To protect against outside elements

7. WFS50 COMPATIBLE
The widest vision even in extreme conditions

LARGE DUAL SILICONE LINED STRAP

The Prospect comes with a 50mm strap backed with two lines of silicone in order to provide the best goggle stability on the helmet, regardless of how rowdy your ride gets.

3 LAYER FACE FOAM

SCOTT's 3-Layer Face Foam incorporates two layers of foam and one layer of fleece. The 1 layer maximizes sweat retention and provides cushioning, the 2 layer ensures a precise comfortable face fit and the 3 layer acts as barrier between the goggle and rider's face.

WFS50 COMPATIBLE

The Prospect is the only MX goggle compatible with SCOTT's revolutionary WFS50. The low nose design allows' installation of the 50mm film and pivoting outriggers enable slick integration of the canisters. These are easily installed without any tools.

SCOTT PROSPECT GOGGLE

262589

The Prospect is a new highlight among MX goggles. It gives the rider a maximum field of vision due to the extra height of the lens. In addition, it features an innovative SCOTT lens lock system that makes the lens stay in the frame no matter what impact is coming from outside. To avoid slipping of the goggle, it is equipped with an extra wide, no-slip silicone strap. This strap together with articulated outriggers, highly contribute to the improvement of the helmet integration. Last but not least, a great feature of the Prospect is that it comes with two lenses - chrome and clear - ideal for any weather conditions.

SCOTT WORKS FILM SYSTEM 50

ELEVEN YEARS AGO, SCOTT RAISED THE BAR IN ROLL OFF TECHNOLOGIES WITH THE INTRODUCTION OF ITS OWN SYSTEM AND HAS SINCE PROVIDED A RELIABLE PRODUCT FOR THE MOST DEMANDING OF WEATHER CONDITIONS. FOR THE 2018 COLLECTION, SCOTT IS ENHANCING THIS LARGE AND MORE FINE-TUNED ROLL OF SYSTEM EVEN MORE BY OFFERING FLASHY CANISTER COLOR OPTIONS. ONCE AGAIN, SCOTT DEFINES THE STANDARD FOR THIS MARKET.

1 ANTISTICK GRID AND TRANSP. MUDFLAP

A larger film requires a redesigned and optimized antistick grid with mudflap. A thin vertical line has been added in the middle of the grid to make sure the film never sticks to the lens. Moreover, the mudflap is made out of a transparent material to offer a larger field of vision in dusty or less extreme conditions.

2 INTEGRATED CANISTER DESIGN

The canisters being positioned behind the pivoting outriggers results in an increase in field of vision. The canister integration results in a more fluid look, achieving necessary style points.

3 LARGE 50MM FILM

With SCOTT's new WFS 50, the height of the film has been increased by 56% to become the largest on the market with no less than 50 millimeters. Combined with a thin frame construction, the WFS 50 offers up to 50 clear views of massive field of vision, even in the most challenging of racing conditions.

CLICK-ON CANISTERS

A new feature of the WFS 50 is SCOTT's Click-On attachment system. No need for tools, no need to waste time; simply click the canisters onto the WORKS pins and ride. The red lever makes sure the canister is safely attached to the pins. This system is the ultimate in WORKS technology: switching from roll offs to tear offs has never been this easy.

SCOTT PROSPECT WFS GOGGLE

262590

The Prospect WFS possesses the same great features than the Prospect goggle. It is equipped with a WFS roll-off system featuring a 50mm film for a large field of vision even in the muddiest conditions. New is, that the canisters can be clipped directly on the WORKS pins of the lens which makes their installation much easier and less time consuming. It takes almost no effort as there are no tools required. It also makes the switch from roll-off to tear-off simple and fast. The improved, transparent anti-stick grid offers a better field of vision, an easier installation in the canisters, a better sliding on the lens and a better sealing with the lens at the top.

FIT: Regular

SCOTT PROSPECT ENDURO

NEW IN THE 2018 COLLECTION, SCOTT PROUDLY INTRODUCES THE PROSPECT ENDURO GOGGLE. SPECIALLY DESIGNED AND DEVELOPED FOR THE NEEDS OF ENDURO RIDERS, THIS GOGGLE PROVIDES A MAXIMUM FIELD OF VISION, THE INNOVATIVE SCOTT LENS LOCK SYSTEM, PIVOTING OUTRIGGERS AND MORE. RIGHT OUT OF THE BOX THE PROSPECT ENDURO IS IMPRESSIVE AND ALTHOUGH WE DON'T LIKE TO ADMIT IT, LOOKS ARE IMPORTANT IN THIS SPORT – SO GRAB THESE GOGGLES AND GET READY TO ROOST.

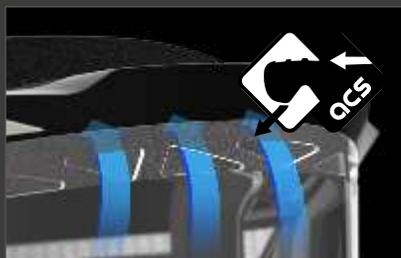

ENDURO FRAME FEATURES

DOUBLE LENSES

Spacer Foam and Double Lenses block moisture and eliminate fogging, while allowing for optimal breathability

AIR CONTROL SYSTEM (ACS)

ACS ventilation incorporates lens air intake vents on the goggle lens and frame air outtake vents on the bottom of the goggle. The result is a sophisticated ventilation system that helps prevent condensation and fogging.

ANTIFOG ON INNER LENS

Enduro double lenses include a soft inner lens which features a stronger built-in antifog solution than any other SCOTT lenses. When riding Enduro races fog should never be an obstacle.

SCOTT WORKS LENSES

WORKS LENSES FEATURE SCOTT'S HISTORIC TECHNOLOGY THAT ENABLES THE RIDER TO USE THE SAME LENS FOR BOTH TEAR OFFS AND ROLL OFFS. THE DO IT ALL LENS. THANKS TO THE FACTORY INSTALLED WORKS PINS, SCOTT ROLL OFF SYSTEMS OR TEAR OFFS CAN BE EASILY AND QUICKLY MOUNTED AND REMOVED DEPENDING ON THE RACE PROFILE AND WEATHER CONDITIONS.

2-PIN WORKS LENSES

Our historic SCOTT WORKS asymmetrical tearoff pin system features one stationary pin and one adjustable pin. The adjustable pin allows for micro tuning the tearoff tension and for perfecting the fit according to rider preference. Both pins can easily be removed to fit the Works Film system.

NEW 4-PIN WORKS LENSES

For the larger lens on the new SCOTT Prospect goggles the 4 pins provide more stability for the tear offs. With this system the tear offs will always remain tight to the lens and provide the rider a better vision.

SCOTT PRECISION OPTICS

SCOTT Precision Optics is a quality label which stands for premium materials and innovative manufacturing techniques. This unique combination enables us to offer distortion free, UV protected, high performance lenses of the best quality.

100% UV PROTECTION

All SCOTT lenses are optically engineered to screen out 100% of harmful UVA/UVB rays.

IMPACT RESISTANCE

In order to ensure that riders are safe from the impact of pebbles and flying debris all SCOTT lenses not only meet, but exceed the required impact resistance standards required for MX lenses.

SCOTT LIGHT SENSITIVE

light sensitive

ONE VERSATILE LENS FOR ALL WEATHER CONDITIONS

SCOTT LIGHT SENSITIVE LENSES ENGAGE PHOTO-CHROMIC TECHNOLOGY AND ADAPT AUTOMATICALLY TO SUNLIGHT INTENSITY. THESE LENSES REACT TO LIGHT CHANGES AND WITHIN SECONDS THE LENS WILL DARKEN WHEN THE BRIGHTNESS GETS STRONGER OR LIGHTEN WHEN THE SUNLIGHT GETS WEAKER.

FOLLOWING MODELS ARE AVAILABLE WITH LIGHT SENSITIVE LENS:
