SOFTCON AIR JACKET PROTECTOR

FULL BODY COVERAGE FOR ULTIMATE PROTECTION

Engineered for riders that demand maximum protection on the track or trail, the all-new Softcon Air Jacket Protector represents a new era of high-tech, ergonomic and breathable body armour for all types of off-road user.

SOFTCON AIR PRO JACKET PROTECTOR

- 1 VENTILATED SOFT PROTECTIVE SCOTT AIRFLEX BACK AND CHEST PLATES FEATURING D3O® TECHNOLOGY
- 2 REMOVABLE D3O® ELBOW AND SHOULDER PADS
- 3 ADDITIONAL PADDING ON BICEPS AND RIBS

D3O®

D3O® IMPACT PROTECTION TECHNOLOGY
D3O® is a unique material that focuses on energy dispersion in critical areas for maximum shock absorption and protection. Energy is distributed throughout the synthetic elastomeric polymer and the enhanced chemistry continues to disperse the energy throughout the matrix, significantly reducing the effect of impact.

AirFlex
PROTECTION

COMFORT THROUGH FLEXIBILITY

Performing at your best requires maximum freedom of movement. While protecting against any energy impact, AirFlex is light and follows your every movement. Soft as a marshmallow, but as hard as a diamond in case of an impact, AirFlex with D3O® feels like a second skin that adapts to your body.

ELEVATE YOUR SAFETY

We take safety seriously and the protection team at SCOTT is passionate about it. We see it as our key goal of who we are and the protection that we produce. We are proud that our full 2022 protection range is equipped with the latest safety technologies.

The all-new SCOTT Softcon Air Jacket Protector sets new standards in upper-body protection. The revolutionary soft ventilated D3O® plate design offers fully certified levels of safety and maximum freedom of movement, whilst simultaneously providing greatly increased airflow to the body. The breathable protection plates combined with strategically placed anti-moisture panels mean this protector works hard to keep you cool and dry when the action heats up. Designed with removable D3O® shoulder and elbow pads, the Softcon Air Jacket Protector is fully customizable and offers a level of protection you won't find anywhere else.

STANDARD: BACK: Level 1 of EN1621-2, SHOULDERS AND ELBOWS: Level 1 of EN1621-1, CHEST: Level 1 of EN1621-3 and EN14021

AIRFLEX PROTECTION WITH D3O® TECHNOLOGY

THE NEW PROTECTION STANDARD

THE SAFER PROTECTION

SCOTT AirFlex protection excels with a SCOTT exclusive D3O® design that protects what matters. Improved protection along the spine with extended support in the crucial lumbar area reduces the risk of injuries by absorbing any type of impact. All of our protection is certified according to current European standards – EN 1621-2. We are proud to offer protection that goes beyond this standard and elevates your safety by covering more of your crucial body parts.

VENTILATION. MAXIMUM AIRFLOW

Gone are the times when back protectors were adding heat. With strategically placed air vents, AirFlex controls body temperature by allowing maximum airflow. Keep your body at the right temperature in every moment.

COMFORT THROUGH FLEXIBILITY

Performing at your best requires maximum freedom of movement. While protecting against any energy impact, AirFlex is light and follows your every movement. Soft as a marshmallow, but hard as a diamond in the event of an impact, AirFlex with D3O® feels like a second skin that adapts to your body.

TECHNOLOGY

D3O® IMPACT PROTECTION TECHNOLOGY

D3O® is a unique material that focuses on energy dispersion in critical areas for maximum shock absorption and protection. The functionality of the raw material originates from the synergetic effects of the polymer-based dilatant. Energy is distributed throughout the synthetic elastomeric polymer and the enhanced chemistry continues to disperse the energy throughout the matrix, significantly reducing the effect of impact.

SHOCK ABSORPTION

Unique technology that focuses on energy absorption and protection.

LIGHT & FLEXIBLE

Provides maximum comfort and protection at the same time.

CE CERTIFIED

Integrated D3O® protectors allow for highest levels of safety according to CE EN 1621.

LEVEL 1 & LEVEL 2 PROTECTION

STANDARD PROTECTION AREA

As required by standard
EN 1621-2:2014

SCOTT EXTENDED LUMBAR SUPPORT

SCOTT AirFlex offers a further lumbar support with D3O® technology.

PROTECTION BEYOND STANDARDS

EXTENDED LUMBAR SUPPORT

For improved protection of your back and spine with extended support in the crucial lumbar area. We are proud to offer protection that goes beyond the "Standard" and elevates your safety by covering more of your crucial body parts.

CERTIFICATION

All our protectors are certified according to current European standards - EN 1621-2:2014.

AIRFLEX – LEVEL 1 PROTECTION

Withstands 5kg impacts with no more than 18kN of force transmitted.

PERFECT FOR: Versatile riders who seek a lightweight protector.

AIRFLEX PRO – LEVEL 2 PROTECTION

Withstands 5kg impacts with no more than 9kN of force transmitted. Level 2 protection offers twice the protection of Level 1.

PERFECT FOR: Riders in exposed terrain seeking maximum protection.

LEVEL 2 OFFERS TWICE THE PROTECTION OF LEVEL 1

The en 1621-2 test drops a 5kg weight on our protector from a 1m height. By measuring the residual force, we design a protector to be Level 1 or Level 2.

Level 2 protection offers twice the protection of Level 1
