NO SHORTCUTS

NO SHORTCUTS

NO SHORTCUTS

Like the modest champion sitting in the corner listening as others spit their egos all over each other, SCOTT quietly lets its achievements, its victories, its skills speak for themselves. We don't make products for those who yearn to be noticed. We make them for those who are going to do what they do whether there's anyone watching or not.

If you're like us, you say what you say, do what you do, ride where you ride because you love it. You do it the right way. You do it for the right reasons.

GOGGLES**

—

SCOTT LCG

ADAPT YOUR VISION

STEP BY STEP LENS CHANGE

1. To start, hold the goggle on the outside of the frame and slide the SCOTT Lens Change slider all the way up to eject the lens.

2. Next, to disengage the lens, grasp the outer rim of the lens and release the two hooks from the slider dock.

3. Insert the single lens hook into the slot on the right hand side of the goggle. Then attach the opposite side of the lens to the 2 lens hooks located on the slider dock.

4. Without pinching the nose area, slide the lever of the SCOTT lens change slider system all the way down making sure it clicks into the locked position and the red dot is fully covered.

SCOTT LENS TECHNOLOGIES

LENS SHAPE

SPHERICAL

Spherical lenses are manufactured to mimic the shape of the human eye in order to provide superior vision in all directions. A greater chamber volume also helps to fight fogging.

CYLINDRICAL

Cylindrical lenses curve from left to right, and are flat from top to bottom. These are low profile, flexible, and offer a unique look.

FOG RESISTANCE

AIR CONTROL SYSTEM (ACS)

ACS ventilation incorporates lens air intake vents on the goggle lens and frame air outtake vents on the bottom of the goggle..

NOFOG™ ANTI-FOG LENS TREATMENT

SCOTT lenses undergo a permanent No Fog™ treatment process to prevent condensation and fogging..

SPACER FOAM AND DOUBLE LENSES

Spacer Foam and Double Lenses block moisture and eliminate fogging, while allowing for optimal breathability.

LENS CAPABILITIES

SCOTT OPTIVIEW

These European manufactured lenses are made of polycarbonate (material,) ensuring comfort and high-impact resistance. SCOTT's proprietary injection molding process and hard coat treatment guarantees that every OptiView lens is optically correct and distortion free. SCOTT OptiView lenses are available as spherical or cylindrical..

SCOTT TRUVIEW

These European manufactured lenses are made of extruded and thermoformed sheets of selected celluloses (CA/CP/PC). TruView lenses pass SCOTT's strict testing procedures delivering high quality, performance lenses. SCOTT TruView lenses are available as cylindrical double or single lens.

EXTERNAL COATINGS

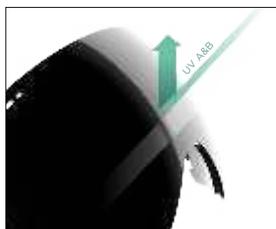

HARD COATING

SCOTT hard coating creates a permanent bond with the lens that reduces the appearance of hairline scratches and provides overall lens durability.

CHROME COATING

SCOTT chrome coating offers unmatched style for your goggles while controlling light transmittance.

100% UV PROTECTION

All SCOTT lenses are optically engineered to screen out 100% of harmful UVA/UVB rays.

SCOTT FRAME TECHNOLOGIES

FACE FIT

FIT SYSTEM

The patented SCOTT Fit System is a mechanical adjustment located at the bottom of each side of the goggle allowing you to choose between four positions, providing a customized face and nose fit.

BIG 3-LAYER FACE FOAM WITH FLEECE

SCOTT's big 3-layer face foam with fleece incorporates two layers of foam and one layer of fleece, delivering the ultimate in comfort and performance fit.

BIG 3-LAYER FACE FOAM WITH WINDPROOF MEMBRANE

This extra soft face foam incorporates a PU layer between the foams to deliver the highest level of protection against wind and cold.

BIG SINGLE LAYER FACE FOAM

Thanks to its oversized shape, Scott's Hypoallergenic Soft Face Foam provides a comfortable fit and precise seal around face. This super soft single density foam also reduces cold spots on the face.

FRAME CONSTRUCTION

SKELETON (LCG)

The latest in eyewear technology, Skeleton Construction gives stability to the frame and guarantees distortion free lens positioning, comfort, and a maximum field of vision.

TRADITIONAL CONSTRUCTION

Traditional Construction offers a light, flexible, slim, and comfortable fit..

OVER THE GLASSES (OTG)

OTG goggles offer protection from the elements and an optimized fit for people requiring prescription glasses.

FRAME VENTILATION

ALL AROUND VENTILATION

Frame Ventilation is optimized around the entire frame in order to channel air flow onto the lens, as opposed to the eyes. This technology blocks dirt and water from entering the goggle.

INTEGRATED RAM AIR

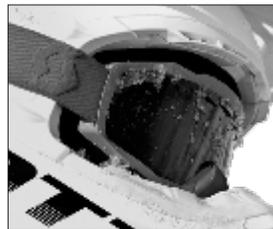

RAM is a patented frame ventilation system that directs airflow within the goggle by using a clean and controlled top-to-bottom pattern, eliminating "swirling air" and fogging.

TYRANT RAM AIR PLUG

Exclusive to SCOTT, the adjustable and removable plug enables a full or partial seal of the RAM Air frame openings, allowing the rider to customize his or her ventilation settings.

INCORPORATING DESIGN

HELMET COMPATIBILITY

SCOTT goggles are engineered to engage flawlessly with a variety of helmets, including SCOTT's entire helmet line.

FACEMASK

Designed for harsh weather conditions SCOTT snowmobile goggles include facemasks that provide additional protection from the wind and cold.

NO-SLIP SILICONE STRAP

An adhered silicone strip on the inside of the goggle strap ensures the goggles stay right where they should on a helmet.

*Noseguard not shown in picture.

CONEHEAD TECHNOLOGY

CONEHEAD™ is a revolutionary method of molding EPS foam to increase the impact properties of helmets. The helmet is molded in two stages and features two parts in two different densities, with a unique conical interface. The use of two densities ensures the optimum impact properties can be achieved on the inside and outside surfaces of the helmet. The conical interface acts like a crumple zone around the head by absorbing and dissipating impact forces sideways, as well as radially, offering improved absorption over a standard construction EPS helmet.

APPAREL

LAYERING

APPAREL TECHNOLOGIES

SHELL FABRICS

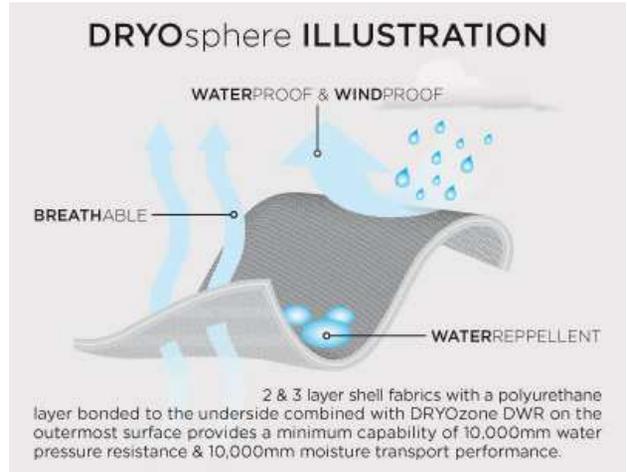

GORE-TEX®

Garments engineered with GORE-TEX® technology are durable, water and windproof, and feature optimal breathability. They are built to maximize protection and comfort. GORE-TEX® products are created by laminating the GORE-TEX® membrane to high-performance textiles. In order to guarantee a waterproof product, the seams on the entire garment are sealed with GORE-SEAM® tape technology.

GORE-TEX® Performance Shell with Z-Liner

DRYOSPHERE

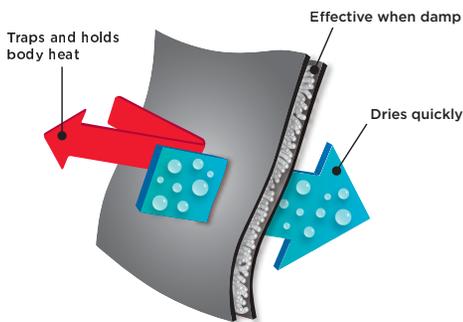

INSULATIONS

3M THINSULATE™ INSULATION

Inch for inch, no insulation keeps you warmer than Thinsulate™, providing up to two times the warmth of other high-loft insulation materials and nearly 1.5 times the warmth of down.

3M™ Thinsulate™ Insulation
The insulation that's thin, light, warm

3M™ Thinsulate™ Platinum Insulation Type J features a unique blend of synthetic hydrophobic fiber, which result in exceptional warmth and better water resistance. Its soft feel and availability in many different gram weights makes it versatile and comfortable for a wide variety of apparel and accessories

3M™ Thinsulate™ Platinum Insulation Type FX is a blend of unique electrometric fine olefin fibers and larger staple fibers. The product is designed for use in applications where stretch and recovery are important.

3M™ Thinsulate™ Platinum Insulation Type G is an economical, 100% polyester, mid-loft insulation. It may be quilted using conventional quilting equipment

LAYERING

POLARTEC® POWER DRY®

Fabrics designed to keep your skin dry when you sweat. Superior wicking action, high breathability and a quick drying function make these pieces always feel comfortable next to skin.

POLARTEC® POWER STRETCH®

Featuring body-hugging 4-way stretch and excellent breathability, Polartec® Power Stretch® fabrics keep you warm and dry without added weight.

APPAREL FEATURES

1. Effective ventilation

2. Insulated double wind flaps

3. Trusted YKK zippers

4. SCOTT developed D-Ring

5. Connection zipper

6. Strongly preshaped form

7. Ease use snowlockers

8. SCOTTsnowcuff and fleece cuff

 + Strongly preshaped fingers for perfect driving position
 + Two way drawcord
 + Goggle wiper

SCOTT COMP PRO GLOVE

240499

The Comp Pro glove is all about performance. With an emphasis on dexterity, this sports oriented glove is flexible with a strong grip, making it a great choice for a competitive rider.

black

CONSTRUCTION: Shell Fabric: 24% Leather, 51% Nylon, 12% Polychloroprene, 7% Polyurethane, 6% Polyester
PALM: Silicon printed clarino
INSERT: DRYOsphere
LINING: 100% Polyester
COMPOSITION: Thinsulate
INSULATION: 100g back of the hand, 40g in palm
SIZE: XS - XXXL

FEATURES:
 + Short gauntlet sport glove
 + Soft, easy fasten wrist adjustment
 + Full silicon print palm
 + Strongly preshaped fingers for perfect driving position
 + Goggle wiper

SCOTT MOD GLOVE

225521

Featuring WINDSTOPPER® technology the MOD glove is highly versatile. With great feel and easy fitting this glove performs well in multiple conditions.

black

CONSTRUCTION: Shell Fabric: Nylon 4way stretch
PALM: Silicon details for grip
COMPOSITION:
INSULATION:
SIZE: XS - XXL

FEATURES:
 + Lightweight GORE WINDSTOPPER® top of the hand

SCOTT NEOPRENE II GLOVE

237324

The Neoprene II Glove from SCOTT is a lightly padded, comfortable glove that will keep you warm when conditions get cold and wet.

black/white

CONSTRUCTION: Shell Fabric: 100% Polychloroprene
PALM: Clarino
COMPOSITION:
INSULATION:
SIZE: S - XXXL

FEATURES:
 + 100% neoprene all purpose glove

black/lime

SCOTT RIDGELINE GLOVES

217721

This glove was designed for the Ridgeline Series with durability, protection, and warmth in mind. The glove is designed with a full neoprene upper with Clarino™ leather palm and neoprene cuff. It's ideal for long trail rides in adverse conditions.

SIZES: S-XXXL

SHELL FABRIC: Neoprene

PALM: Clarino™

FEATURES

+ Full clarino leather palm for durability and protection

black/lime green - 2897

▼ JUNIOR

SCOTT CODY II JUNIOR GLOVE

240500

With the same features as the adult version the Cody II Junior is perfectly sized for the younger rider.

CONSTRUCTION: Shell Fabric: 75% Nylon, 25% PU

PALM: Rubber

INSERT: DRYOsphere

LINING: Softfill 100% Polyester

COMPOSITION:

INSULATION: 200g back of the hand, 140g palm

SIZE: XS - L

FEATURES:

+ Extra warm winter glove with long gauntlet

+ Reflective details

+ Easy use wrist adjustment

+ Two way drawcord

black

SCOTT CODY II JUNIOR MITTEN

240501

With the same features as the adult version the Cody II Junior is perfectly sized for the younger rider.

CONSTRUCTION: Shell Fabric: 75% Nylon, 25% PU

PALM: Rubber

GLOVES TECHNOLOGIES

MCFIT

"mCFIT technology" is a glove assembling technology using special adhesive members in assembling each layer of a glove (lining, membrane insert and out-shell) avoiding sewing process completely. The technology can be applied to not only WWB glove, but also single layer glove without limitation to the materials and designs.

This innovative technology provides your hands "Maximum Comfort" through the benefits as: Tactility and Dexterity, One-layer Fitting and Superior Grip Durability, Additional Wind-proof of Heavy insulated gloves of Thimble shape adhesive members.

WINDSTOPPER

With total windproof protection and excellent breathability, WINDSTOPPER® softshell combines the comfort of a soft midlayer with the water resistance of a shell.

SCOTT BOOTS

—

SCOTT X-TRAX SMB BOOT

237677

The SCOTT X-Trax is a high end boot for sport riders. Main features are the removable insulated bootie with speed lacing, the strong ankle maintains, the waterproof and breathable membrane and the SCOTT Ice Grip sole.

COMPOSITION: SCOTT Ergologic inner sole
Speed lacing bootie
Thermo-formable bootie
SIZE: 40-46

FEATURES:

- + Strong ankle maintains
- + Waterproof/breathable DRYOsphere membrane
- + SCOTT Ice Grip sole
- + Removable thermo-formable adjustable linervv
- + Adjustable bootie with speed lacing

black/grey

white/grey

SCOTT R/T SMB BOOT

237678

The SCOTT R/T Boots features a waterproof and breathable DRYOsphere membrane, a removable inner bootie and the SCOTT Ice Grip Sole. The molded toe box is reinforced and the top fabric can be adjusted by laces.

COMPOSITION:
SIZE: 38-47

FEATURES:

- + DRYOsphere membrane
- + Removable inner bootie
- + SCOTT Ice Grip sole
- + Reinforced molded toe box
- + Top part fabric in reinforced ballistic nylon and adjustable by laces

SCOTT COMMANDER JACKET PROTECTOR

232317

The Commander jacket integrates perfectly with a neck brace and provides unprecedented comfort. The removable sleeves are minimalist and are fully ventilated to help keep the rider cool. Add in intelligently designed plastic shoulders and elbow pads and the Commander Jacket becomes the ultimate body guard.

CONSTRUCTION:

- + Articulated PE and ABS plastic plates
- + Absorbing rubber foam layer

SIZE:

M,L,XL

FEATURES

- + Perfect Neck brace compatibility - Patented Commander Neck brace system
- + Extremely aerated and flexible Commander's chest and front plastic coverage

- + Anti-moisture inner front and back panel in 3D mesh
- + Flex multi front plate panel
- + Shoulder length Velcro adjustment
- + Front Ratchet buckle closure
- + Anatomic impact biceps foam
- + Removable ergonomic and bendable elbow and shoulder pads
- + Double tightening band on forearm to avoid arm pump
- + Vented mesh main fabric on sleeve

SCOTT COMMANDER BODY ARMOR

237210

The Commander Body Armor offers brace integration construction. Articulated plates on the back panel alleviate excess pressure and discomfort when wearing a neck brace. The vented, articulated plates allow for the back of any brace to be worn comfortably without interfering with the protector. It can be worn under or over the rider's jersey.

white - 0002

black/green - 1043

CONSTRUCTION:

- + Articulated and impact absorbing shell
- + Combination of high innovative impact absorbing foams
- + Breathable mesh
- + Adjustable waist straps ratchet closure

SIZE:

M,L,XL

FIT:

Regular

FEATURES

- + Neck brace integration
- + Flex panels

- + Shoulder adjustment
- + Waist adjustment
- + Ratchet micro adjustable closure
- + Ultra vented and breathable with inner mesh construction
- + Ultra-light and minimalist volume
- + Flexible and ergonomic pre shaped front protector
- + Adjustable shoulder straps length with smart Velcro system

SCOTT SOFTCON JACKET PROTECTOR

232314

The SCOTT Softcon jacket exemplifies cutting edge personal safety technology and provides unmatched comfort. It is designed to be worn under the jersey and integrates seamlessly with most neck braces. The innovative soft SAS TEC™ foam is associated with a very tear and scratch resistant foil but is built with venting for improved breathability.

black - 0001

CONSTRUCTION:

- + One-piece plate in SaS TEC™ on Back & Chest
- + SaS TEC™ pads on elbow & shoulder
- + 3D and stretchable mesh fabrics

SIZE:

M,L,XL

FEATURES

- + Perfect Neck brace compatibility
- + Removable elbow and shoulder pads
- + Anti-moisture inner panels in 3D mesh
- + Main body made of stretch mesh fabric
- + Arm pump free construction
- + Lock zipper
- + Seamless collar

SCOTT SOFTCON VEST PROTECTOR

232315

The SCOTT Softcon Vest is designed to be worn under the jersey and integrates seamlessly with most neck braces. The Vest offers the same protective SAS TEC™ foam as the jacket and is perfect for those who want chest and back protection without the arm and elbow pads.

CONSTRUCTION:

- + One-piece plate in SaS TEC™ on Back & Chest
- + 3D and stretchable mesh fabrics

SIZE: M,L,XL

FEATURES

- + Perfect Neck brace compatibility
- + Anti-moisture inner panels in 3D mesh
- + Main body made of stretch mesh fabric
- + Lock zipper
- + Seamless collar

black - 0001

SCOTT SOFTCON BODY ARMOR

232316

The SCOTT Softcon Body Armor is a simple chest and back protector that features chest and back plates built with SAS TEC™ material. With adjustable waist lock buckles to ensure a secure fit, the armor also features recesses in the front and back to accommodate most neck braces.

CONSTRUCTION:

- + One-piece plate in SaS TEC™ on Back & Chest
- + 3D and stretchable mesh fabrics

SIZE: M,L,XL

FEATURES

- + Perfect Neck brace compatibility
- + Anti-moisture liner in 3D mesh
- + Adjustable waist belt
- + Easy lock buckle closure

black - 0001

SCOTT SOFTCON BACK PROTECTOR

232323

The SCOTT Softcon Back Protector is for those who are seeking the ultimate in back protection. It features adjustable shoulder and chest straps as well as an adjustable velcro belt to ensure a perfect fit. The back plate is fitted with SAS TEC™ material and features a layer of memory foam for the ultimate in comfort.

CONSTRUCTION:

- + One-piece plate in SaS TEC™
- + Additional highly absorbing foam layer
- + 3D mesh fabric

SIZE: M,L,XL

FEATURES

- + Anti-moisture liner in 3D mesh
- + Adjustable shoulder and chest straps
- + Adjustable velcro belt

black - 0001

SCOTT PURSUIT 350 JACKET PROTECTOR 240552

The SCOTT 350 Pursuit Jacket offers SCOTT's highest level of protection. With a back-plate, as well as shoulder and lumbar adjustment, the Pursuit Jacket can be adjusted to perfection depending on the rider's preferences and the demands of the environment.

black/green - 1043

CONSTRUCTION:

- + Impact plastic coverage
- + Internal light honey comb structure
- + Soft high absorbing foam layer

SIZE: M,L,XL

FIT: Regular

FEATURES

- + Exclusive vertebrae protective plates system with ventilated plastic back plates
- + Back protector plate
- + Adjustable elbow and forearm guard
- + Adjustable shoulder width
- + Lumbar adjustment and velcro closure belt
- + Neck brace compatible
- + Side zipper entry

SCOTT SOFT CR II BACK PROTECTOR 237211

The SCOTT Soft CR II back protector features the innovative D3O® Viper plate. The plate is low profile which makes it compatible with most neck braces.

black/green - 1043

CONSTRUCTION:

- + D3O® Viper protective plate
- + Aerated 3D mesh

SIZE: M,L,XL

FEATURES

- + Removable, soft, ventilated D3O® Viper back plate
- + Breathable mesh back panel
- + Adjustable shoulder straps and chest belt
- + Double elastic hip belt

SCOTT MX UNDERSHORTS PROTECTOR 225598

The SCOTT MX Undershirt was designed to be worn under MX pants to provide extra hip protection. A comfortable chamois was added to the seat area to provide more cushion. This undershirt is perfect for those seeking a little more protection as well as more comfort in the saddle.

black/green - 1043

CONSTRUCTION:

- + Impact plastic coverage
- + Soft absorbing foam pads

SIZE: S,M,L,XL

FIT: Regular

FEATURES

- + Removable plastic shell protection on legs
- + Protective flap in EVA on the top of hips
- + Chamois pad for increased comfort
- + Breathable and comfortable mesh construction
- + Multi-panel construction

SCOTT COMMANDER ELBOW GUARDS

232322

The SCOTT Commander Elbow guards were designed to flex with the natural motion of the elbow and feature a vented mesh fabric on the sleeve for better breathability. The mesh also helps to reduce arm pump.

CONSTRUCTION:

- + Articulated PE plastic plates
- + Absorbing rubber foam layer

SIZE: S/M, L/XL

FEATURES

- + Removable and easy bendable elbow caps
- + Removable adjustment strap
- + Full fabric sleeve

black - 0001

SCOTT MX KNEE GUARD

217775

These guards offer basic knee and shin protection. The knee guards feature an efficient 3-strap adjustment and are fully articulated for ease of movement.

CONSTRUCTION:

- + Impact plastic coverage
- + Bio Foam

SIZE: one size

FIT: Regular

FEATURES

- + Articulating Knee
- + 3 comfort straps

black/green - 1043

SCOTT 550 NECK BRACE

237807

The SCOTT 550 neck brace balances the individual needs of comfort, effectiveness and safety. Adjustability ensures secure fitting and greater freedom of motion, optimizing the Leatt® protective technology. The semi-rigid chassis is flexible and adjustable enough to fit most riders' body shape, while the structure remains rigid enough to help transmit energy during an impact.

CONSTRUCTION:

- + Fiberglass reinforced polyamide resin structure
- + Injected foam padding

SIZE: S/M, L/XL

FEATURES

- + Engineered snap-off thoracic strut
- + Full adjustability - sliding front and rear adjusters
- + Removable pads to adjust the height of the brace
- + Collar bone cut out section
- + Quick release closure

black - 0001

grey/black - 1019

SCOTT 250 NECK BRACE

235877

The SCOTT 250 neck brace is a premium neck protection with an affordable price tag. Fibreglass reinforced polyamide construction and Biofoam padding with fixed front and rear panels.

CONSTRUCTION:

- + Fibreglass reinforced polyamide resin
- + Carbon-fibre, reinforced with Kevlar® Shock absorbing Biofoam

SIZE: S/M, L/XL

FIT: Premium

FEATURES

- + Engineered snap-off thoracic strut
- + Full adjustability - sliding front and rear adjusters
- + Red hinges - easy identification for medical personnel
- + Collar bone cut out section
- + Easy fit strap system
- + Crumple zone

▼ JUNIOR

SCOTT 550 JUNIOR NECK BRACE

237808

The Junior Neck Brace 550 balances the needs of comfort, effectiveness and safety by allowing greater freedom of movement and adjustment. Specifically designed for adjustability ensure a correct fit as junior riders grow, optimizing effectiveness and protection. Shoulder pads can raise or lower the brace for a personalized fit while lowered side areas accommodates the smaller stature of junior riders.

CONSTRUCTION:

- + Fibreglass reinforced polyamide resin structure
- + Injected foam padding

SIZE: one size

FEATURES

- + Engineered snap-off thoracic strut
- + Full adjustability - sliding front and rear adjusters
- + Removable pads to adjust the height of the brace
- + Collar bone cut out section
- + Quick release closure

black - 0001

SCOTT JUNIOR NECK ARMOR

237809

The Jr. Neck Armor is the first of its kind, combining neck and torso protection for Junior riders. It addresses that young riders are more susceptible to chest, flank, shoulder, back and neck injuries. Pairing established neck protection with new impact absorbing 3DF foam technology provides a comfortable and well vented upper body protector.

CONSTRUCTION:

- + Fibreglass reinforced polyamide resin structure of the brace
- + Absorbing rubber foam layer - 3DF foam technology

SIZE: XS, S

FEATURES

- + Neck protection based on the 550 neck brace model
- + Flexible neck structure
- + Removable shoulder protection
- + Large Velcro closure on chest sides
- + Vest built with soft, aerated and flexible impact foam
- + Inner mesh fabric panel
- + Quick release closure

black - 0001

SCOTT SOFT CR II JR BACK PROTECTOR

225600

The Junior SCOTT Soft CR II back protector features the innovative D3O® Viper plate surrounded by ventilated 3D mesh. The plate is low profile which makes it compatible with most neck braces. With multiple adjusting straps the Junior Soft CR II can be adjusted for a custom fit.

CONSTRUCTION:

- + D3O® Viper protective plate
- + Aerated 3D mesh

SIZE: XS, S

FIT: Regular

FEATURES

- + Removable, soft and ventilated D3O® back plate
- + Removable, adjustable shoulder straps
- + Adjustable sternum strap
- + Double elastic hipbelt

black/green - 1043

SCOTT JR COMMANDER BODY ARMOR

237212

The Junior Commander Body Armor offers the same patented NECK BRACE INTEGRATION CONCEPT as the adult version. Articulated plates on the back panel alleviate excess pressure and discomfort when wearing a neck brace. The vented, articulated plates allow for the back of any brace to be worn comfortably without interfering with the protector. It can be worn under or over the rider's jersey.

CONSTRUCTION:

- + Articulated PE and ABS plastic plates
- + Absorbing rubber foam layer

SIZE: XS, S

FEATURES

- + Neck brace integration
- + Flex panels
- + Shoulder adjustment
- + Waist adjustment

black/green - 1043

white - 0002

HARD PROTECTION

COMMANDER PROTECTIVE SYSTEM

THE SCOTT COMMANDER SETS NEW STANDARDS WITH INNOVATIVE, LIGHTWEIGHT AND IMPACT ABSORBING MATERIALS PLACED IN KEY AREAS WHICH OFFER AN ADJUSTABLE ERGONOMIC FIT AND UNPRECEDENTED COMFORT. THE COMMANDER BODY ARMOR FULFILLS ALL REQUIRED SAFETY STANDARDS AND A NEW REVOLUTIONARY NECK BRACE INTEGRATION CONCEPT.

THE PATENTED INDEPENDENT FLOATING MID PLATE SYSTEM ON BACK ALLOWS A PRECISE INCORPORATION WITH NECK BRACE AND A REAL FREEDOM OF MOVEMENT. NO MORE COMPLICATED ADJUSTMENTS, NO NEED TO REMOVE PLATES: JUST PUT YOUR NECK BRACE ON AND YOU ARE READY TO RIDE.

BEST RATIO PROTECTION/THICKNESS

The back protector is built with thin and advanced high density foam allowing reducing the thickness but still passing well all required tests.

FULL MOISTURE MANAGEMENT

Air circulates through the holes and mesh fabric to effectively manage efficiently moisture in your back and chest.

PERFECT LEATT® INTEGRATION

The back plates are split in 2 parts to emphasize the incorporation with the neck brace. The strut of the brace can follow your movement without making any pressure on the back plates.

TOTAL MOBILITY. COMFORTABLE FIT

On the back: the slot connections of the plates are wider to allow a better movement and the foam has a special shape to ensure better flex.
On the chest: The front is split in 5 panels to ensure more ranges of movement and wrap your chest.

SAFE CLOSURE

The ratchet buckles allow to adjust your fit and to be safe packed into your protection.

NEW JACKET VERSION

The new sleeve on the jacket version offers a comfortable fit avoiding arm pump due to the stretch fixing band and an easy bending due to the intelligent design of the shells.

ERGONOMIC AND PRECISE COVERAGE

The protections were designed to follow the lines of your shoulder and elbows.

They are also minimalists but they protect your arm where you have impact risks.

SAFE AND EASY BENDING

The elbow shell is divided in 2 parts with an overlap between them: you can bend easily your elbow and be protected anyway.

ARM PUMP FREE ZONE

The forearm sleeves have integrated lycra stretch panels which provide a secure fit, and avoid the arm pump that traditional straps can cause.

VERTEBRAE PROTECTIVE SYSTEM

THE SCOTT VERTEBRAE SYSTEM WAS AWARDED SEVERAL TIMES FOR ITS INNOVATIVE AND UNIQUE CONSTRUCTION. THE PLATE SYSTEM MIMICS THE VERTEBRAE, ARTICULATING IN 3 AXES TO ENSURE FREE LATERAL EXTENSION AND COMPRESSION MOVEMENTS, RESULTING IN COMPLETE FREEDOM OF MOVEMENT AND THE HIGHEST LEVEL OF PROTECTION.

ARTICULATING HARD PROTECTION

The hard plastic plates are joined using an innovative rivet system allow the plates to move freely with the body, maximizing comfort and freedom of movement.

FULL MOISTURE MANAGEMENT

Air circulates through the holes of the different layers to effectively manage efficiently moisture in your back.

HIGH PROTECTION

The Vertebrae system adheres to the highest-level safety standard meaning you get added comfort without sacrificing safety. The 450 model is certifying according to Level 2 of the CE.

SOFT PROTECTION

SOFTCON PROTECTIVE SYSTEM

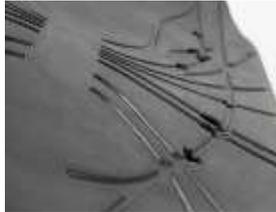

THE REVOLUTIONARY SOFTCON JACKET IS THE MOST FLEXIBLE AND COMFORTABLE SOLUTION TO BE PROTECTED WITHOUT COMPROMISING PROTECTION.

COMBINING INNOVATIVE MATERIALS -SAS TEC™- AND A UNIQUE DESIGN THE NEW SOFTCON DELIVERS UNPARALLELED FREEDOM OF MOVEMENT WHILE REMAINING PROTECTIVE BY PASSING TREE STANDARDS. ITS BACK AND FRONT ARE LOW PROFILED AND HAVE SPECIAL RECESS TO INCORPORATE AND FIT WITH NECK BRACES.

PERFECT NECK BRACE COMPATIBILITY

The recessed shape on front and back allows putting easily the neck brace on the protector without removing any parts and wearing the neck brace on the jersey.

MAXIMIZED AIRFLOW VENTILATION

The vents increase the circulation and fresh air to keep you cool.

FLEXIBLE SAS TEC™ FOAM STRUCTURE

SCOTT Motosports collection uses a unique viscoelastic material called SAS TEC™ that enhance flexibility allowing the protection to conform to the body and ensure a tight and consistent seal.

LOW PROFILE AND INVISIBLE LOOK

The protection is so thin that it is invisible under the jersey.

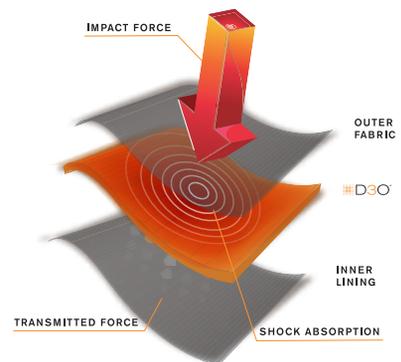

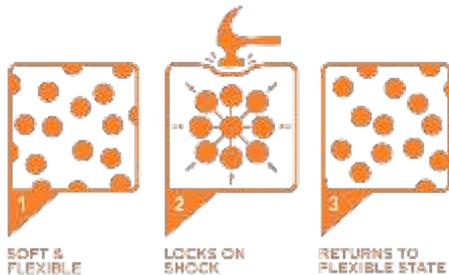

PROTECTION TECHNOLOGIES

HOW DOES D3O® MATERIAL WORK?

D3O® is a patented material with intelligent molecules. It flows with you as you move but locks together on impact to absorb energy and protect you. This unique innovative component provides an optimal freedom of movement and surpasses CE standards.

INCREASED COMFORT AND MOBILITY.

D3O® back protection is low profile, lightweight, flexible and soft. D3O® protectors allow for complete freedom of movement and mold to your body so you will not even feel like you are wearing a back protector.

SCOTT SPECIFIC DESIGN

SCOTT CR Back Protectors feature SCOTT's unique 3D mesh back that increases breathability. The adjustable belt helps you customize the fit.

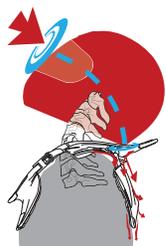

NECK BRACE TECHNOLOGIES

Neck injuries can be of the most serious upper body injuries. The SCOTT NECK BRACE was engineered in collaboration with Leatt®, the market leader and pioneer of the "helmet for your neck". It functions in conjunction with your helmet and is designed to help protect your neck from extreme movements and overall neck loading in the event of an accident. The SCOTT NECK BRACE is engineered with Leatt®'s proven Alternative Load Path Technology™ (ALPT™) and features seamless integration of function, movement and looks.

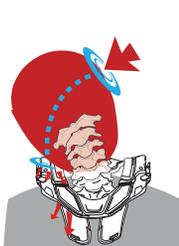

ALPT: ALTERNATIVE LOAD PATH TECHNOLOGY.

All SCOTT Braces help protect riders from 5 types of head/neck impacts by employing Alternative Load Path Technology™. This innovation helps disperse the energy, typically transferred to the neck, resulting from an impact to the head" and assists in the transferring of forces away from the vulnerable neck structures to less vulnerable areas of the body and is pivotal in the design of all SCOTT neck Braces.

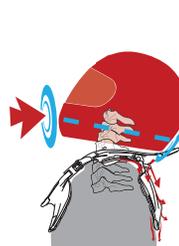

THE SCOTT NECK BRACE HELPS PROTECT AGAINST THE FOLLOWING MAIN SCENARIOS:

HYPEREXTENSION:
over-bending of the head in rearward direction.

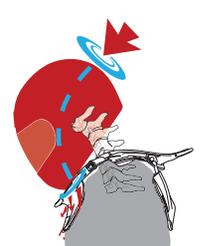

LATERAL HYPERFLEXION:
over-bending of the head to one side.

POSTERIOR HYPERTRANSLATION:
extreme movement of head and helmet, rearward on the neck.

COUPLED AXIAL LOADING:
Helps prevent axial loading only when the axial forces act in combination with other mechanisms.

HYPERFLEXION:
over-bending of the head in forward direction

SCOTT AIR FREE AP 30 KIT

SCOTT AIR FREE AP 12 PRO PACK
SCOTT AIR FREE AP 12 PRO KIT

239652
239653

The new SCOTT Air Free AP 12 Pro is the preferred airbag of professional freeskiers and freeride competitors. A light and compact avalanche pack, this pack offers the stand-alone SCOTT Alpride Airbag System as well as an integrated D3O® back protector. The pack provides ample space for essentials like a shovel and probe, and additional items such as gloves, layers, or goggles. A trail-running inspired harness shoulder strap system ensures a tight-fit that moves the bag with your motions. Simply, this is the best airbag for your next adventure.
