PROSPECT

»amplifier
LENS TECHNOLOGY

The new SCOTT Prospect Amplifier Goggle not only defends, but also enhances your vision when riding. These lenses are injection molded to provide improved definition and optical clarity, allowing you to see contours and transitions in the dirt like never before.

»amplifier
LENS TECHNOLOGY

1

AMPLIFIER TECHNOLOGY

The injected Amplifier lens increases clarity and contrast to offer riders superior vision over a standard lens.

2

LENS LOCK SYSTEM

With this feature SCOTT guarantees the safest lens retention on the market. It features 4 locking pins that go through the lens keeping the lens in no matter what.

3

PIVOTING OUTRIGGERS

The two pivoting outriggers adapt to any helmet shape, providing a good seal on the rider's face.

The new SCOTT Prospect AMPLIFIER Goggle not only defends, but also enhances your vision when riding. These lenses are injection molded to provide improved definition and optical clarity, allowing you to see contours and transitions in the dirt like never before. With other perfected features such as the NoSweat face foam, a maximum field of vision, the innovative SCOTT Lens Lock System, articulating outriggers and much more, the super-stylish SCOTT AMPLIFIER Prospect Goggle has been engineered to Defend Your Vision no matter how extreme the conditions get.

PROSPECT

THE PINNACLE OF MOTO GOGGLE DESIGN AND INNOVATION

The Prospect is the ultimate moto goggle. Designed from the ground up with performance in mind, this top-of-the-range goggle offers uncompromised vision, maximum protection and ultimate style.

1 **MASSIVE FIELD OF VISION**
SCOTT offers the largest field of vision on the market. The larger lens and the thin frame construction bring the lens closer to your eyes maximizing your vision to the fullest.

2 **LENS LOCK SYSTEM**
With this feature SCOTT guarantees the safest lens retention on the market. It features 4 locking pins that go through the lens keeping the lens in no matter what.

3 **PIVOTING OUTRIGGERS**
The two pivoting outriggers adapt to any helmet shape, providing a good seal on the rider's face.

The SCOTT Prospect is our flagship off-road motocross goggle. Used by an ever-growing list of champions, the Prospect goggle has everything you need to ensure your vision is the best it can be on the track or trail. With perfected features such as the NoSweat face foam, a maximum field of vision, the innovative SCOTT Lens Lock System, articulating outriggers and much more, the super-stylish SCOTT Prospect goggle has been engineered to Defend Your Vision no matter how extreme the conditions get.

The SCOTT Prospect Light Sensitive Goggle is an absolute highlight among off-road and motocross goggles. It gives the rider a maximum field of vision and features an innovative SCOTT Lens Lock System that makes the lens stay in the frame no matter what impact is coming from outside. Like the regular Prospect, this model comes with NoSweat face foam. What makes this goggle so special is the Light Sensitive lens, which adapts automatically to sunlight intensity. With this lens you are equipped for any and all light conditions!

PROSPECT

WFS

THE NO. 1 CHOICE FOR CHALLENGING CONDITIONS

When it comes to racing on wet or muddy tracks, the Prospect WFS goggle is the only real choice. The race-proven, precision-engineered WFS50 system combined with the massive field of vision leaves all other goggles scrambling for second place.

CLICK-ON CANISTER

No need for tools, no need to waste time; simply click the canisters onto the WORKS pins and ride. The red lever makes sure the canister is safely attached. This system is the ultimate in WORKS technology.

LARGE 50 MM FILM

The SCOTT WFS50 is the largest film on the market, measuring a massive 50 millimeters. Combined with a thin frame construction, it offers up to 50 clear views even in the most challenging conditions.

ANTI-STICK GRID AND TRANSPARENT MUDFLAP

A large film requires an optimized anti-stick grid with mudflap. A thin vertical line has been added in the middle of the grid to make sure the film never sticks to the lens.

The SCOTT Prospect WFS Goggle is the perfect solution for racing in wet and muddy conditions. It comes equipped with a WFS50 roll-off system for a large and clear field of vision when the mud starts spraying. The canisters can be clipped directly on the WORKS lens pins for quick and easy installation, with no tools required. Tear-offs can then be easily installed on the same pins for extra vision protection. The transparent anti-stick grid offers a superior field of vision, smooth sliding on the lens and a better sealing with the lens at the top.

FRAME TECHNOLOGIES

PROSPECT

SUPER WFS

A PRO-LEVEL GOGGLE FOR RIDERS
THAT DEMAND THE BEST

Previously only available to our pro team riders, the scott engineers have spared no expense in their quest to make the Prospect Super WFS the ultimate motocross racing goggle. With exclusive features and premium components, this goggle is as good as it gets.

DOUBLE LENS

Spacer Foam and Double Lens block moisture and eliminate fogging while allowing for optimal breathability.

PERFORATED ANTI-STICK DOTS ON LENS

To ensure the smoothest film transfer possible, anti-stick dots on the lens provide pro-level performance when you need it most.

WFS MUDFLAP WITH SEALING TAPE

Specifically designed to create the ultimate seal to keep out any unwanted water drops.

The SCOTT Prospect Super WFS is the ultimate motocross racing goggle. It possesses the same great features as the Prospect WFS, but the Super WFS version features a double WORKS lens with the unique addition of premium anti-stick dots for hyper-smooth sliding action and an upgraded mudflap with sealing tape for maximum performance. It comes equipped with a WFS50 roll-off system for a large and clear field of vision when the mud starts spraying. The canisters can be clipped directly on the WORKS lens pins for quick and easy installation, with no tools required. Tear-offs can then be easily installed on the same pins for extra vision protection.

PROSPECT

ENDURO

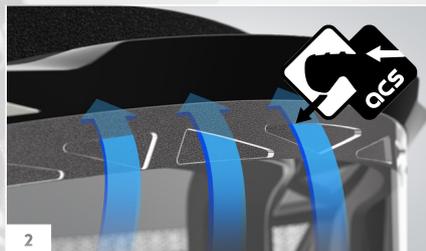

OPTIMAL PERFORMANCE WITH ENDURO-SPECIFIC FEATURES

Designed to perform in the toughest conditions on the planet, the Prospect Enduro features a double lens and an air control ventilation system to ensure your vision remains crystal clear no matter where you find yourself riding.

DOUBLE LENS

Spacer Foam and Double Lens block moisture and eliminate fogging while allowing for optimal breathability.

AIR CONTROL SYSTEM (ACS)

ACS ventilation incorporates lens air intake vents on the goggle lens and frame air outtake vents on the bottom of the goggle resulting in a sophisticated ventilation system against condensation and fogging.

ANTI-FOG ON INNER LENS

Enduro double lenses include a soft inner lens which features a stronger built-in anti-fog solution than any other SCOTT lens. When riding Enduro races fog should never be an obstacle.

The SCOTT Prospect Enduro Goggle is designed specifically for the modern enduro rider. Boasting the same great features as the Prospect, it also comes with a double lens with Air Control System that prevents fogging and gives the enduro rider extra-clear vision in low-speed situations. In addition, it features an innovative SCOTT Lens Lock System and NoSweat face foam. To avoid slipping of the goggle, it is equipped with an extra-wide, no-slip silicone strap. This strap, together with the articulated outriggers, highly contribute to the improved helmet integration.

PROSPECT

SAND DUST
LIGHT SENSITIVE

DESIGNED TO DEFEND YOUR VISION FROM THE SMALLEST
GRAINS OF SAND

In the desert or on the beach, the Prospect Sand Dust LS is constructed with specifically engineered foam that ensures the sand stays out of your eyes. Paired with a Light Sensitive lens which adapts to sunlight intensity, this is the ultimate goggle for all sand-based riding.

SMALL PARTICLE VENT FOAM MEMBRANE

To avoid any sand or dust-sized particles getting into the frame, all SCOTT Sand Dust goggles are mounted with a closed cell membrane instead of the traditional open cell vent foam. This technology guarantees perfect isolation from the elements.

LIGHT SENSITIVE LENS CAT. 1-2

SCOTT Light Sensitive lenses engage photochromic technology and adapt automatically to sunlight intensity. These lenses react to light changes and within seconds the lens will darken when the brightness gets stronger or lighten when the sunlight gets weaker.

LENS LOCK SYSTEM

With this feature SCOTT guarantees the safest lens retention on the market. It features 4 locking pins that go through the lens keeping the lens in no matter what.

The SCOTT Prospect Sand Dust Light Sensitive Goggle has been specifically designed for use on beaches, in deserts and out in the dunes. The already exceptional features of the Prospect goggle are paired with the revolutionary Dust Catcher foam. Ride freely without worrying about even the smallest dust or sand particles getting inside your goggles. This assurance, combined with a large field of vision, the innovative SCOTT Lens Lock System, articulated outriggers and a Light Sensitive lens that adapts automatically to sunlight, are everything you need for your next ride.

FURY.

LOW PROFILE, HIGH PERFORMANCE

The younger brother of the Prospect, the Fury is a lightweight option that doesn't compromise on safety or style. Pushing the limits of field of vision, comfort and lens retention, the Fury is a perfect choice for all levels of rider.

MASSIVE FIELD OF VISION

Carrying the same lens as the Prospect goggle, we are proud to say that the Fury offers the largest field of vision on the market. The large lens combined with a thin frame construction brings the lens closer to your eyes, maximizing the overall field of vision.

LENS LOCK SYSTEM

Transferred from the Prospect to the Fury Goggle, our innovative Lens Lock System is another highlight that distinguishes this new goggle. With the Lens Lock System it guarantees you the safest lens retention on the market and enables you to change your lens anywhere anytime.

PROSPECT ACCESSORY COMPATIBLE

WFS 50, lens, anti-stick grid or mudflap – any of these accessories can be used for both our Fury and Prospect Goggle. This makes it very convenient to switch from one goggle to the other without worrying about the right accessories.

The SCOTT Fury Goggle is guaranteed to shake things up. Shaped by innovation, technology and design, the Fury follows in the steps of our flagship goggle, the Prospect. Featuring our proven SCOTT Lens Lock System, 3-layer face foam, no-slip silicone strap, and supporting all the same accessories as the Prospect, this low-profile, high-performance motocross goggle was fully developed to Defend Your Vision in any and all conditions.

PRIMAL

THE PRIMAL COMPLETES THE SCOTT GOGGLE FAMILY

The Primal goggle has been engineered to be the ultimate entry-level moto goggle. Designed to offer great features at an affordable price, the stylish, comfortable and extremely functional Primal goggle offers a whole lot of bang for your buck.

1

2-LAYER FACE FOAM

Open-celled face foam with excellent moisture-absorbing and thermal properties, guaranteeing you stay dry and comfortable all day.

2

NOFOG™ ANTI-FOG LENS TREATMENT

A permanent No Fog™ treatment process prevents condensation and fogging, keeping your vision clear.

3

SCOTT TRUVIEW SINGLE WORKS LENS

Lightweight and featuring two single WORKS pins for tear-off. Blocks 100% of harmful UV rays.

The SCOTT Primal Goggle is the latest addition to the SCOTT off-road goggle range. With its perfect blend of simplicity and style, this goggle is ideal for newcomers and experienced riders on a budget. With features such as 2-layer face foam, a chrome SCOTT TruView single WORKS lens and NoFog™ Anti-Fog lens treatment, the Primal follows in the footsteps of its big brothers, the Prospect and the Fury. Optimized for smaller faces, the Primal packs a real punch and is available at an unbeatable price.

SPLIT OTG

THE ULTIMATE GOGGLE FOR WEARING OVER THE GLASSES

The new and fully updated SCOTT Split OTG Goggle is the ultimate goggle for wearing over the glasses. A new integrated RAM Air System dictates the flow of air coming into the goggle through the top spoiler to ensure the lenses don't steam up and stay crystal clear all day long.

1 INTEGRATED RAM AIR SYSTEM
This innovative new intake system is engineered specifically to increase air-flow to reduce the risk of your glasses or goggle lenses fogging up.

2 OPTIMIZED FOR PRESCRIPTION GLASSES
Specially designed to offer maximum comfort and an ergonomic, secure fit when worn over your regular prescription glasses.

3 3-LAYER FACE FOAM
SCOTT's 3-Layer Face Foam incorporates three layers of foam to provide maximum comfort and help wick away moisture.

The new and fully updated SCOTT Split OTG Goggle is the ultimate goggle for wearing over the glasses. A new integrated RAM Air System dictates the flow of air coming into the goggle through the top spoiler to ensure the lenses don't steam up and stay crystal clear all day long. MOTO LENS GUIDE

With a whole host of different lens options available in our range, this lens guide is designed to help make sure your vision is always the best it can be, by understanding which lenses work best in different light conditions.

S0-2 / S1-2: ONE LENS FOR EVERY LIGHT CONDITION

VISIBLE LIGHT TRANSMISSION

SINGLE LENS: S0-2 / 28-86% | DOUBLE LENS: S1-2 / 26-76%

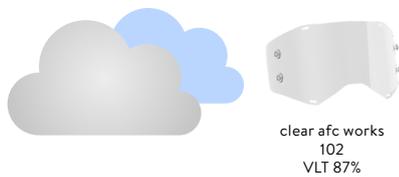

CAT.S1 / CAT.S2 / CAT.S4: OPTIMIZING CONTRAST AND CLARITY

SINGLE LENS: CAT.S1 | CAT.S2 | CAT.S4

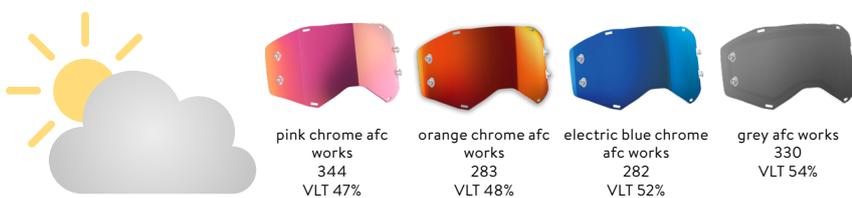

S0: DARK / OVERCAST

VISIBLE LIGHT TRANSMISSION – 80%-100%

S1: MIXED / WHITE CLOUD

VISIBLE LIGHT TRANSMISSION – 43%-80%

S2: BRIGHT SUNSHINE

VISIBLE LIGHT TRANSMISSION - 18%-43%

SCOTT'S OFF-ROAD INJECTED MOLDED AMPLIFIER LENSES UTILIZE A UNIQUE LIGHT TRANSMISSION CURVE TO OPTIMIZE CONTRAST AND OPTICAL CLARITY.

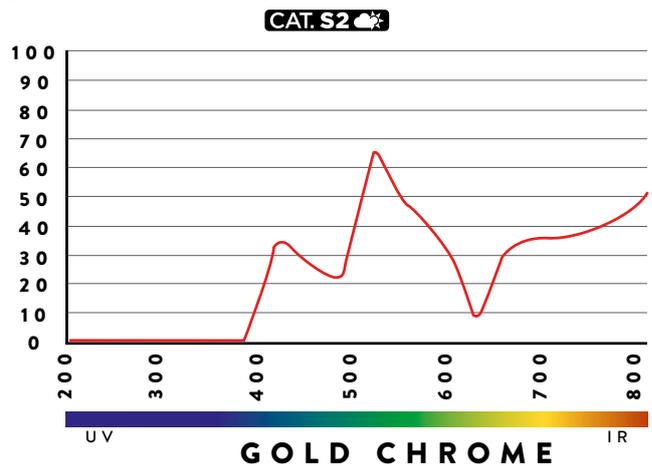

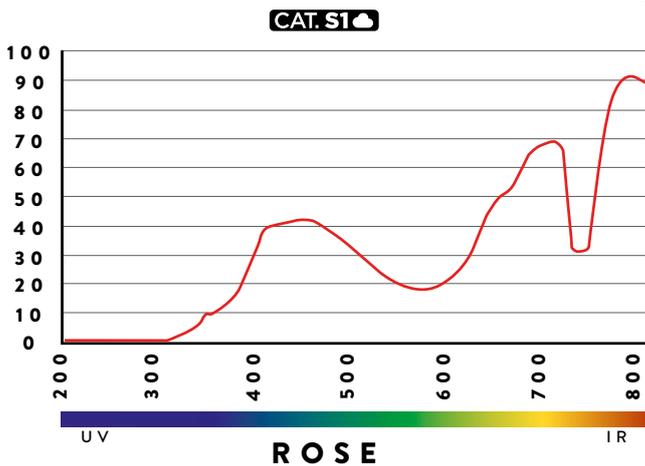

WHAT IS CONTRAST?

The SCOTT Amplifier tint is designed to let through some specific colors to your eye while filtering out others, in order to create a high contrast within the terrain you are looking at.

HOW DOES THE EYE PERCEIVE CONTRAST?

Through years of research we have learnt that our eyes are better at perceiving certain wavelengths than others. The eye can be thought of as the lens of a camera. There are parts and mechanisms inside the eye that control the vital role in our ability to see things in focus, color, darkness and brightness. By controlling what is let through the Amplifier lens, we can control how the external environment is perceived.

SCOTT AMPLIFIER TECHNOLOGY IS AVAILABLE IN TWO OFF-ROAD LENS OPTIONS

CONTRAST AMPLIFIED

SCOTT sets the industry standard for contrast enhancing optics with its patented amplifier lens technology. The secret to amplifier technology is its ability to add contrast while increasing clarity and definition in all racing conditions.

MAIN BENEFITS

- Allows you to see contours, ruts and transitions in the dirt in ultra-high-definition
- Works for both motocross and enduro
- Builds speed and confidence through improved visual clarity

SCOTT LIGHT SENSITIVE LENSES

ONE LENS FOR EVERY LIGHT CONDITION

SCOTT's Light Sensitive lenses engage photo-chromic technology and adapt automatically to sunlight intensity to give you ultimate vision on the track regardless of the light conditions. These lenses automatically react to light changes and within seconds the lens will either darken when the brightness gets stronger or lighten when the sunlight gets weaker. This means going from bright sun into sudden shade has never been easier.

THE FOLLOWING MODELS ARE AVAILABLE WITH LIGHT SENSITIVE LENS:

DOUBLE LENS : S1-2 / 26-76%

SCOTT WORKS LENSES

SCOTT'S INNOVATIVE WORKS LENSES SET OUR GOGGLES APART FROM THE REST.

Featuring SCOTT's historic technology, the WORKS lens enables the rider to use the same lens for both tear-offs and roll-offs. With these do-it-all lenses, you can be fully prepared for whatever the weather might throw at you. Thanks to the factory-installed WORKS pins, SCOTT roll-off systems or tear-offs can be easily and quickly mounted and removed depending on the race profile and track conditions.

4 - PIN WORKS LENSES

For the larger lens on the SCOTT Prospect and Fury goggles, the 4 pins provide more stability for the tear-offs and the WFS50. With this system the accessories will always remain tight to the lens and provide the rider with a better vision.
